The New International Encyclopædia-Frank Moore Colby 1922  
The New International Encyclopaedia- 1923  
Rulership in 1st to 14th century Scandinavia-Dagfinn Skre 2019-12-16 This book discusses the 3rd-11th century developments that led to the formation of the three Scandinavian kingdoms in the Viking Age. Wide-ranging studies of communication routes, regional identities, judicial territories, and royal sites and graves trace a complex trajectory of rulership in these pagan Germanic societies. In the final section, new light is shed on the pinnacle and demise of the Norwegian kingdom in the 13th-14th centuries.  
The Transformation of Humanities Education-Vidar Grøtta 2019-02-28 This first comprehensive study of Norwegian humanities education employs systems theory to analyze its transformation from a form of teacher training to its modern status as research-oriented generalist education. Using historical documents and statistical analyses, Vidar Grøtta shows that the expansion of the post-war research system in Norway led to an increase in admissions to humanities education in the 1960s and an ensuing research drift in humanities curricula. Interacting with certain political dynamics and the knowledge economy that has emerged since the 1970s, this research drift resulted in a shift in humanists' career patterns and a transformation of the societal functions of the humanities. The most recent developments in Norwegian humanities education, from 2000 to 2018, are outlined and discussed in the afterword to this volume.  
A Bibliography of English Etymology-Anatoly Liberman 2010 Distinguished linguistics scholar Anatoly Liberman set out the frame for this volume in An Analytic Dictionary of English Etymology. Here, Liberman's landmark scholarship lay the groundwork for his forthcoming multivolume analytic dictionary of the English language. A Bibliography of English Etymology is a broadly conceptualized reference tool that provides source materials for etymological research. For each word's etymology, there is a bibliographic entry that lists the word origin's primary sources, specifically, where it was first found in use. Featuring the history of more than 13,000 English words, their cognates, and their foreign antonyms, this is a full-fledged compendium of resources indispensable to any scholar of word origins.  
Illinois Studies in Language and Literature- 1942  
Nordic Landscapes-Michael Jones 2008 "Norden"-the region along the northern edge of Europe bordered by Russia and the Baltic nations to the east and by North America to the west-is a particularly fruitful site for the examination of the ever-evolving meaning of landscape and region as place. Contributors to this work reveal how Norden's regions and people have been defined by and against the dominant culture of Europe while at the same time their landscapes and cultures have shaped and inspired Europe's ways of life. Together, the essays provide a much-needed picture of this culturally rich and geographically varied part of the world. Contributors: Ingvild Austad, Sogn og Fjordane U College; Gabriel Bladh, Karlstad U; Tomas Germundsson, Lund U; Jens Christian Hansen, U of Bergen; Kirsten Hastrup, U of Copenhagen; Leif Hauge, Sogn og Fjordane U College; Maunu Häyrynen, U of Turku; Margareta Ihse, Stockholm U; Ari Aukusti Lehtinen, U of Joensuu; Anders Lundberg, U of Bergen; W.
