OCR GCSE Computer Science (9-1) J277-S. Robson 2020-03-31 he aim of this book is to provide a comprehensive and accessible text for students, covering Papers 1 and 2 in the latest OCR GCSE J277 Computer Science specification. It will be invaluable as a course text for students throughout the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 6 and 7 of the textbook cover algorithms and programming fundamentals with a theoretical approach to provide students with experience of writing, tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections cover one of the major topics in this course, and each subtopic contains sample examination questions from past papers, which can be set as homework.
Greek to GCSE: Part 2-John Taylor 2016-09-08 First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics, whilst Part 2 introduces a wider range of grammatical forms and constructions, with a vocabulary of 435 words and reading material from Socrates and the Sophists to the world of myth, and finally to extended passages of lightly adapted Herodotus. Practice passages, exam papers and revision sentences for GCSE complete Part 2, which has a reference section covering the whole course. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accent and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.
Business Studies for OCR GCSE-Peter Kennerdell 2001 This is a new and essential text for students studying the new OCR GCSE Business Studies specification. It provides complete coverage of all elements of the revised specification including full and short courses, the options, key skills and coursework assignments.
