A Doubter's Guide to the Bible-Terry Giles 2010-10-01 Is the Bible still an authoritative guide? Television documentaries regularly explore the "mysteries of the Bible" and question whether its stories can be supported by historical facts. A multitude of people claim the Bible's authority for their own, often competing, agendas. And for many, the church has lost credibility in light of various scandals and failures. Is it any wonder, then, that a growing number of folks doubt whether the Bible is a legitimate source of religious authority, much less the word of God? In A Doubter's Guide to the Bible, Terry Giles asks the hard questions that skeptics have about the Bible. Affirming the legitimacy of doubt in light of such questions, Giles invites us to walk with him as he explores issues such as the Bible's origins, violence in the Bible and in the modern world, and the degree to which the Bible has been used as propaganda to justify particular ends. Never ignoring the doubts that may still remain, Giles suggests that the Bible's power arises from its ability to open up a space where we can meet God, who confronts us amidst all the messiness of our humanity. Whether we've never considered these questions before--and especially if we have--A Doubter's Guide to the Bible is an essential companion on our spiritual journey.

And need her they do, for inside the hospital walls, a strange war is unfolding between the pseudo-kindly woman who is their father's second wife and the rest of the original Hawkes clan. Upon reconnecting with her brother and sisters, Grace will find a part of herself she thought was lost forever. As they unravel the manipulative deception of the second Mrs. Hawkes, Grace will finally be able to stand up for her family--and to remember what a family is, even after all these years.

A Dark Champion-Kinley MacGregor 2009-10-13 Fearless men, their allegiance is to one another, to the oppressed, and to the secret society known as the Brotherhood of the Sword—and they must never surrender to the passionate yearnings of their noble hearts. A Lady of Love Beautiful, peace-loving Rowena knows that Stryder of Blackmoor is a warrior, and is therefore a man to be shunned. But something burns in the eyes of this powerful knight that she has never seen in others of his kind: a tenderness, and a need to love and be loved. Yet to enter his world would be madness—against every principle by which she has lived her life—so she must resist the yearning that would draw her into his arms. A Man of War Duty bound to battle for right, Stryder has never desired the comforts of home and hearth—until he gazed upon the exquisite face and form of the incomparable Rowena. He dares not succumb to her sensuous charms, for Stryder is a man sworn to know no love. A Life Without Consequences-Stephen Elliott 2002-07 A Life Without Consequences is a semi-biographical novel from emerging author Steve Elliott. His novel traces the fate of Paul, a boy whose mother has died and who runs away from a violent father. The book follows Paul from living on the streets of Chicago to passing through juvenile institutions and a state system that is primarily programmed for failure. There, he meets Tanya and they fall in love but they are young and are separated after a failed attempt to escape the institution. Paul battles through the violent system all the while battling his own rapidly budding adolescence. But as he turns sixteen he starts to come to terms with his own path, not as an adult, but as a scared child. Paul's emotions that we think of as anger are actually the determination to take control of his future. As he starts to overcome the system that has housed him, we see him developing a voice and a future of his own, but one day Tanya reappears in his life and the real decisions have to be made. While the characters-John are fictional, the do not have to be they are representative of many and we realize the fragility of childhood and the burden on the children who have nowhere else to go.

Ad Infinitum-Nicholas Ostler 2009-05-26 The Latin language has been the one constant in the cultural history of the West for more than two millennia. It has been the foundation of our education, and has defined the way in which we express our thoughts, our faith, and our knowledge of how the world functions. Indeed, the language has proved far more enduring than its empire in Rome, its use echoing on in the law codes of half the world, in the terminologies of modern science, and until forty years ago, in the liturgy of the Catholic Church. It is the unseen substance that makes us members of the Western world. In his erudite and entertaining "biography," Nicholas Ostler shows how and why (against the odds, through conquest from within and without) Latin survived and thrived even as its creators and other languages failed. Originally the dialect of Rome and its surrounds, Latin supplanted its neighbors to become, by conquest and settlement, the language of all Italy, and then of Western Europe and North Africa. Its cultural creep toward Greek in the East led it to copy and then ally with it in an unprecedented, but invincible combination: Greek theory and Roman practice, delivered through Latin, became the foundation of Western civilization. Christianity, a latecomer, then joined the alliance, and became vital to Latin's survival when the empire collapsed. Spoken Latin re-emerged as a host of new languages, from Portuguese and Spanish in the west to Romanian in the east. But a knowledge of Latin lived on as the common code of European thought, and inspired the founders of Europe's New World in the Americas. E pluribus unum. Illuminating the extravaganza of its past, Nicholas Ostler makes clear that, in a thousand echoes, Latin lives on, ad infinitum.

A Platform-Centric Approach to System-on-Chip (SOC) Design-Vijay Madiseti 2006-06-28 Increasing system complexity has created a pressing need for better design tools and associated methodologies and languages for meeting the stringent time to market and cost constraints. Platform-centric and platfo- based system-on-chip (SoC) design methodologies, based on reuse of software and hardware functionality, has also gained increasing exposure and usage within the Electronic System-Level (ESL) design communities. The book proposes a new methodology for realizing platform-centric design of complex systems, and presents a detailed plan for its implementation. The proposed plan allows component vendors, system integrators and product developers to collaborate effectively and efficiently to create complex products within budget and schedule constraints. This book focuses more on the use of platforms in the design of products, and not on the design of platforms themselves. Platform-centric design is not for everyone, as some may feel that it does not allow them to differentiate their offering from competitors to a significant degree. However, its proponents may claim that the time-- market and cost advantages of platform-centric design more than compensate for any drawbacks.

A Metaphoric Mind-Joseph E. Couture 2013 Dr. Joseph Couture (1930-2007), known affectionately as "Dr. Joe," stood at the centre of some of the greatest political, social, and intellectual struggles of Aboriginal peoples in contemporary Canada. A profound thinker and writer, as well as a gifted orator, he easily walked two paths, as a respected Elder and traditional healer and as an educational psychologist, one of the first Aboriginal people in Canada to receive a PhD. His work challenged and transformed long-held views of Canada's Indigenous peoples, and his vision and leadership gave direction to many of the current fields of Aboriginal scholarship. His influence extended into numerous areas--education, addictions and mental health treatment, community development, restorative justice, and federal correctional programming for Aboriginal peoples. With a foreword by Aboriginal rights activist Lewis Cardinal, A Metaphoric Mind brings together for the first time key works selected from among Dr. Joe's writings, published and unpublished. Spanning nearly thirty years, the essays invite us to share in his transformative legacy through a series of encounters, with Aboriginal spirituality and ancestral ways of knowing, with Elders and their teachings, with education and its role in politicization, self-determination, and social change, and with the restorative process and the meaning of Native healing. Shaped by his social science training but also by his apprenticeship in Medicine Ways, his writings allow us to experience the richness and power of fully functional Indigenous culture. Ruth Couture is a qualitative researcher with extensive experience in marketing research and participatory holistic research. She is the author of numerous research reports for the Mistissini Cree, for the University of Saskatchewan's Indigenous Peoples' Health Research Centre, and, with Dr. Joseph Couture, for the Aboriginal Peoples' Collection, Public Safety Canada. Virginia McGowan has been involved in applied anthropology research on the health and well-being of indigenous peoples for over twenty years. She currently leads research activities for a division of Correctional Service Canada and has published journal articles and discussion papers for both the federal and provincial governments.
