Teaching Creatively and Teaching Creativity-Mary Banks Gregerson 2012-11-13 Creative teaching as well as teaching creativity are cutting edge issues in psychology today as recent academic and popular media coverage has shown. This volume expands on that interest with chapter authors drawn from interdisciplinary areas. It includes examples of creatively teaching across the education system, including preschool, K-12, undergraduate, and graduate level education. The variety of subjects covered by the chapters include psychology, math, science, and reading. In addition to creative teaching which may lead to enhanced learning and achievement in students, as well enhanced creativity, another focus is teaching with the objective to enhance creativity.

Something Old, Something New-Wendy Bishop 1990-03-05 How do college writing teachers learn new ways to teach? Most current composition research focuses almost exclusively on student writers, ignoring the role the teacher plays in classroom development. Here is the first book to focus on college writing teachers and the ways in which they are affected by graduate rhetoric pedagogy courses. Wendy Bishop observed teachers enrolled in a doctoral seminar, titled "Teaching Basic Writing," and then conducted case studies of five of those teachers in their college writing classrooms to investigate how their teaching practices changed and how their previous professional and personal histories influenced their ability to make those changes.

Everybody In, Nobody Out-Ken Fischer 2020-08-21 Housed on the campus of the University of Michigan in Ann Arbor, the University Musical Society is one of the oldest performing arts presenters in the country. A past recipient of the National Medal of Arts, the nation's highest public artistic honor, UMS connects audiences with wide-ranging performances in music, dance, and theater each season. Between 1987 and 2017, UMS was led by Ken Fischer, who over three decades pursued an ambitious campaign to expand and diversify the organization's programming and audiences—initiatives inspired by Fischer's overarching philosophy toward promoting the arts, "Everybody In, Nobody Out." The approach not only deepened UMS's engagement with the university and southeast Michigan communities, it led to exemplary partnerships with distinguished artists across the world. Under Fischer's leadership, UMS hosted numerous breakthrough performances, including the Vienna Philharmonic's final tour with Leonard Bernstein, appearances by then relatively unknown opera singer Cecilia Bartoli, a multiyear partnership with the Royal Shakespeare Company, and artists as diverse as Yo-Yo Ma, Jawole Willa Jo Zollar, Elizabeth Streb, and Nusrat Fateh Ali Khan. Though peppered with colorful anecdotes of how these successes came to be, this book is neither a history of UMS nor a memoir of Fischer's significant accomplishments with the organization. Rather it is a reflection on the power of the performing arts to engage and enrich communities—not by handing down cultural enrichment from on high, but by meeting communities where they live and helping them preserve cultural heritage, incubate talent, and find ways to make community voices heard.

Farm Women-Rachel Ann Rosenfeld 2017-10-01 Rosenfeld argues that farm women have rarely been identified as productive farm workers and that they continue to be seen only as mothers and homemakers. She shows that in addition to performing a wide range of farm work, these women in fact help ensure the farm's economic survival by contributing wages from outside employment. She raises questions about government policy and stresses the need for study in both industrialized and development societies. I Was Told There'd Be Cake-Sloane Crosley 2008-04-01 Hailed by David Sedaris as "perfectly, relentlessly funny" and by Colson Whitehead as "sardonic without being cruel, tender without being sentimental," from the author of the new collection Look Alive Out There. Wry, hilarious, and profoundly genuine, this debut collection of literary essays is a celebration of fallibility and haplessness in all their glory. From despoiling an exhibit at the Natural History Museum to provoking the ire of her first boss to siccing the cops on her mysterious neighbor, Crosley can do no right despite the best of intentions -- or perhaps because of them. Together, these essays create a startlingly funny and revealing portrait of a complex and utterly recognizable character who aims for the stars but hits the ceiling, and the inimitable city that has helped shape who she is. I Was Told There'd Be Cake introduces a strikingly original voice, chronicling the struggles and unexpected beauty of modern urban life.

Academic Writing and Publishing-James Hartley 2008-04-22 Academic Writing and Publishing will show academics (mainly in the social sciences) how to write and publish research articles. Its aim is to supply examples and brief discussions of recent work in all aspects of the area in short, sharp chapters. It should serve as a handbook for postgraduates and lecturers new to publishing. The book is written in a readable and lively personal style. The advice given is direct and based on up-to-date research that goes beyond that given in current textbooks. For example, the chapter on titles lists different kinds of titles and their purposes not discussed in other texts. The chapter on abstracts instructs the reader on writing structured abstracts from the start.
