Cancer Pharmacology and Pharmacotherapy Review-Anthony J. Perissinotti, PharmD, BCOP 2016-03-14 Cancer Pharmacology and Pharmacotherapy Review is the first book devoted entirely to providing the ‘must-know’ facts on each cancer agent—including their pharmacokinetics, FDA-approved indications, toxicity, interactions, and other important information that is commonly found on board examinations and essential for any clinician or practitioner to review. The authors, an oncologist and two pharmacists, have developed a handy question-and-answer format to present the material in digestible bursts. As the pharmacology section continues to represent a major portion of the medical oncology exam and a key component on oncology MOC exams, this portable study guide will help prepare anyone looking to fine-tune their knowledge on cancer drugs before the test. Not to mention, with recent advancements in the field of cancer treatment, it has become more cumbersome to recall and maintain essential knowledge of every cancer therapeutic—making this book not only an exam resource but also a handy quick reference for oncologists and pharmacists alike. KEY FEATURES Conveniently organized and arranged by drug class and subtypes for easier recall and classification Includes proper dosage adjustments to account for liver and kidney dysfunction Features tables throughout that provide quick reference regarding FDA-approved medications Simplified diagrams and illustrations facilitate the pharmacokinetic processes

Understanding and Overcoming Your Emotional Issues/A Biblical Perspective and Solution-Waltere Koti 2019-02-11 If you were to watch the news lately, you will notice that opioid addiction has been declared a national crisis as many turn to drugs and other substances like alcohol, marijuana, cocaine, wine, and spirits to control their mind and thought process. Many also turn to psychiatrists to get relief from prescription medication. All these drugs, legal or illegal, have one thing in common: temporal and intermittent control of your feelings, emotions, and mind. A few years ago, while training as chaplain, we had a guest speaker who is a psychiatrist with more than thirty years' experience. She came to give a speech on emotional issues, and I raised my hand and asked her this fundamental question: what causes depression? Her response was, "Cause is unknown." This response troubled me as I thought to myself, if the cause is unknown, then why are millions of people being medicated? This book seeks to answer a fundamental question: are emotional issues like loneliness, fear, anxiety, depression, and suicidal thoughts medical or spiritual issues? Your response to this question will determine where you go for help.
