Super 30-Anand Kumar 2016-05-23 Anand Kumar, a mathematics prodigy, defied all challenges to set up one of the most successful and innovative teaching initiatives in the world—Super 30. Born in Chandipur Bela, Patna, Anand secured a place in Cambridge University but couldn't attend because he had no money and sold papads in the evenings instead. He dealt with his own disappointment by setting up an innovative school in 2002 to prepare underprivileged students for the IIT JEE examination. Super 30 has an astonishing success rate and on an average, twenty-seven to twenty-eight of the thirty students crack the exam every year. Stirring and heart-wrenching, this is the extraordinary story of a visionary who has elevated these bright sparks and, through education, given them hope to rise above crippling poverty.

A Discourse Grammar of Mandarin Chinese-Chauncey Cheng-hsi Chu 1998 "A Discourse Grammar of Mandarin Chinese" focuses on the relationships between clauses in Mandarin Chinese in the functional framework. Underlying these relationships are notions like modality, presupposition, topicality, and information structure, encoded by such devices as conjunction, aspect, topic, -sentence-particles and subordination. Chauncey Chu devotes a chapter to each of these devices, with a view to discovering their contribution to the coherent organization of Chinese discourse. These devices are finally integrated into a network, culminating in a proposal of -the discourse sentence- (represented by SENTENCE) to replace the syntactically and/or semantically defined -traditional- sentence. The organization of SENTENCES into paragraphs also is discussed in the framework of Rhetorical Structure Theory."
