CoLaboratories of Democracy-Alexander N. Christakis 2006-02-01 We have all experienced the benefits of dialogue when we openly and thoughtfully confront issues. We have also experienced the frustration of interminable discussion that does not lead to progress. CoLaboratories of Democracy enable large, diverse groups to dialogue and generate positive results. Many group processes engender enthusiasm and good feeling as people share their concerns and hopes with each other. CoLaboratories go beyond this initial euphoria to: Discover root causes; Adopt consensual action plans; Develop teams dedicated to implementing those plans; and Generate lasting bonds of respect, trust, and cooperation. CoLaboratories achieve these results by respecting the autonomy of all participants, and utilizing an array of consensus tools including discipline, technology and graphics that allow the stakeholders to control the discussion. These are explained in depth in a book authored by Alexander N. Christakis with Kenneth C. Bausch: CoLaboratories of Democracy: How People Harness Their Collective Wisdom to Create the Future (Information Age, 2006). CoLaboratories are a refinement of Interactive Management, a decision and design methodology developed over the

past 30 years to deal with very complex situations involving diverse stakeholders. It has been successfully employed all over the world in situations of uncertainty and conflict. On Cyprus, for example, it has been used to bridge the divide between the Turkish and Greek factions on the island. It is currently being employed on that island to help Palestinian authorities organize their government. CoLaboratories in one day can draw together a diverse group of people on an issue, elicit authentic feelings and respectful listening, generate agreed upon language, and identify leverage points for effective action. Participants will be able to generate a consensual action plan. CoLaboratories generate real respect, understanding, and cooperation among participants and do it rapidly.

The Chess Queen-Valerie Edwards 2015-06-21 In 1986, Elizabeth Ward Hoskins died leaving the contents of her home on Cape Cod to my husband, Donald Ward Bennett Edwards. He grew up in California unaware of his Ward family history in Boston. He had the opportunity while still a young boy to meet his great aunt, Elizabeth Bruen Perkins (Bessie), who speaks for the family in this biographical book which begins with her grandfather, Samuel Gray Ward, a prominent member of Boston's society and patron to many writers and artists. In Ralph Waldo Emerson's book, Letter to a Friend, the friend referred to is Samuel Gray Ward with whom he had a life long friendship. Elizabeth Hoskins, like many New England families of that era, never threw away items such as letters, news articles, scrapbooks and post cards. While working to dispose many of the items in the house unaware of the many famous people acquainted with the family, I discovered a manuscript dated 1928 written by Howard Ridgely Ward, the brother of Elizabeth Perkins. In it he described his life with the Thomas Wren Wards of New York and his Bostonian grandparents. It became obvious that there was a fascinating story to be written and so I began. It took two years to transcribe all the material at which time I began to relate closely with the course of the life of Elizabeth Perkins. Events, except for very few, in The Chess Queen actually took place, only the dialogue with its emotional content is my own. I know Bessie spoke through me to tell her story.

The History of Sarasota Sailing Squadron-John E. Pether 2017-05-15 What you are about to read is a history of the Sarasota Sailing Squadron (a.k.a the Squadron, the SSS or the club) from its humble beginnings in the late 1930s, when a group of teenagers got together to form a "down to earth" sailing club on the City Pier, which was the center of Sarasota. After its first Commodore, Walter Fox was elected in 1942, the club was disbanded as members were either called up or volunteered to fight in the Second World War. They returned in 1946/47 as seasoned veterans to raise families. It was these folks and their families that restarted the club and laid the foundation for the wonderful club that we know today. I will take you through the vibrant life that members of the Squadron enjoyed in those days, as they partied at the Lido Beach Casino, dancing, drinking and selecting the Labor Day Regatta Queen, or celebrating the change of watch at the annual Commodore's Ball, held at the Tropicana Night Club, a location which exists today as the Three Seniorita's restaurant at 1355 Main Street. We will see how members in the "old days" made their own fund in the small dinghies that they owned as they enjoyed overnight cruising and camping on the mosquito infested spoil banks at the north end of Sarasota Bay near Jewfish Key and the Mar Vista Pub, catching fish for the evening meal and combining their catch into a cast iron pot with potatoes, onions and spices to create a fish stew for all to enjoy. In June 1958, as the city of Sarasota expanded and developed, with plans to demolish the old City Pier, the club was moved to the desolate lands of City Island near the New Pass bridge. The Squadron's only neighbor at the time was WSPB radio station which had begun transmitting from City Island at 7 am on December 7, 1939.

Ewyn Garrity, a security guard at the gay club where Kerry dances, has found himself in protecting others. Everyone thinks he's straight, but Ewyn doesn't fit into simple boxes, either. When he meets Kerry, he makes a not completely innocent offer of company after work. Ewyn and Kerry hit it off, each finding something he desperately needs in the other. But when Kerry is forced to confront the pain and self-doubt that keep him crushed in his boxes, he's afraid that no one, not even Ewyn, will be able to love who he is when he finally, truly becomes Kerry. Oil Revolution-Christopher R. W. Dietrich 2017-06-30 Through innovative and expansive research, Oil Revolution analyzes the tensions faced and networks created by anti-colonial oil elites during the age of decolonization following World War II. This new community of elites stretched across Iran, Iraq, Saudi Arabia, Venezuela, Algeria, and Libya. First through their western educations and then in the United Nations, the Arab League, and the Organization of Petroleum Exporting Countries, these elites transformed the global oil industry. Their transnational work began in the early 1950s and culminated in the 1973-4 energy crisis and in the 1974 declaration of a New International Economic Order in the United Nations. Christopher R. W. Dietrich examines how these elites brokered and balanced their ambitions via access to oil, the most important natural resource of the modern era.
