The acrolect in Jamaica- G. Alison Irvine-Sobers An ability to speak Jamaican Standard English is the stated requirement for any managerial or frontline position in corporate Jamaica. This research looks at the phonological variation that occurs in the formal speech of this type of employee, and focuses on the specific cohort chosen to represent Jamaica in interactions with local and international clients. The variation that does emerge, shows both the presence of some features traditionally characterized as Creole and a clear avoidance of other features found in basilectal and mesolectal Jamaican. Some phonological items are prerequisites for "good English" - variables that define the user as someone who speaks English - even if other Creole variants are present. The ideologies of language and language use that Jamaican speakers hold about "good English" clearly reflect the centuries-old coexistence of English and Creole, and suggest local norms must be our starting point for discussing the acrolect.

Third World Women and the Politics of Feminism-Chandra Talpade Mohanty 1991 "The essays are provocative and enhance knowledge of Third World women's issues. Highly recommended . . . --Choice " . . . the book challenges assumptions and pushes historic and geographical boundaries that must be altered if women of all colors are to win the struggles thrust upon us by the 'new world order' of the 1990s." --New Directions for Women "This surely is a book for anyone trying to comprehend the ways sexism fuels racism in a post-colonial, post-Cold War world that remains dangerous for most women." --Cynthia H. Enloe " . . . provocative analyses of the simultaneous oppressions of race, class, gender and sexuality . . . a powerful collection." --Gloria Anzaldúa " . . . propels third world feminist perspectives from the periphery to the cutting edge of feminist theory in the 1990s." --Aihwa Ong " . . . a carefully presented wealth of much-needed information." --Audre Lorde " . . . it is a significant book." --The Bloomsbury Review " . . . excellent . . . The nondoctrinaire approach to the Third World and to feminism in general is refreshing and compelling." --World Literature Today " . . . an excellent collection of essays examining 'Third World' feminism." --The Year's Work in Critical and Cultural Theory These essays document the debates, conflicts, and contradictions among those engaged in developing third world feminist theory and politics. Germanic Standardizations-Ana Deumert 2003-10-27 This volume presents a comparative, socio-historical study of the Germanic standard languages (Afrikaans, Danish, Dutch, English, Faroese, Frisian, German, Icelandic, Low German, Luxemburgish, Norwegian, Scots, Swedish, Yiddish as well as the Caribbean and Pacific Creole languages). Each of the 16 original chapters systematically discusses central aspects of the standardization process, including dialect selection, codification, elaboration and diffusion of the standard norm across the speech community, as well as incipient processes of de-standardization and re-standardization. The strongly comparative orientation of the contributions allow for the identification of broad similarities as well as intriguing differences across a wide range of historically and socially diverse language histories. Two chapters by the editors provide an overview of the theoretical background and rationale of comparative standardization research, and outline directions for further research in the area. The volume will be of interest to language historians as well as sociolinguists in general.

Customs in Common-E. P. Thompson 2015-09-22 An epic and intimate firsthand account of a true American hero's daring journey into the heart of the Amazon forest in the nineteenth-century. "Meticulously researched, elegantly argued and deeply humane," Customs in Common describes the complex culture from which working class institutions emerged in England—a panoply of traditions and customs that the new working class fought to preserve well into Victorian times (The New York Times Book Review). This remarkable sequel to E. P. Thompson's influential, landmark volume of social history, The Making of the English Working Class, investigates the gradual disappearance of a range of cultural customs against the backdrop of the great upheavals of the eighteenth century. As villagers were subjected to a legal system increasingly hostile to custom, they tried both to resist and to preserve tradition, becoming, as Thompson explains, "rebellious, but rebellious in defence of custom." Although some historians have written of riotous peasants of England and Wales as if they were mainly a problem for magistrates and governments, for Thompson it is the rulers, landowners, and governments who were a problem for the people, whose exuberant culture preceded the formation of working-class institutions and consciousness. Essential reading for all those intrigued by English history, Customs in Common has a special relevance today, as traditional economies are being replaced by market economies throughout the world. The rich scholarship and depth of insight in Thompson's work offer many clues to understanding contemporary changes around the globe. "By providing a fuller sense of the way of life capitalism destroyed, Customs in Common helps us understand why the resistance to it was so protracted and tenacious . . . [This] long-awaited collection . . . is a signal contribution . . . [from] the person most responsible for inspiring the revival of American labor history during the past thirty years." —The Nation "This book signals the return to historical writing of one of the most eloquent, powerful and independent voices of our time. At his best he is capable of a passionate, sardonic eloquence which is unequalled." —The Observer

What You Need to Know about Strategy-Jo Whitehead 2012-04-11 In any career in business, chances are that the time will come when someone will ask you to

do a strategy for something. Too often, this will be a cue for stress at work and sleepless nights. What You Need to Know about Strategy shows that it doesn't have to be like this. Taking you step-by-step through the basics of what you need to know to come up with a great strategy, it shows: That getting the right answers depends on asking the right questions Why priorities matter How to map out your internal and external situation How to deal with uncertainty How to make tough choices What your brain does while you're doing strategy By cutting out the theory, and focusing on the things you need to know and do to come up with a killer strategy, this book means that you never need to panic again.

Corruption and Development-S. Bracking 2007-11-28 This collection examines anti-corruption campaigns and argues that they have often resulted in perverse and unintended consequences. The book examines how corruption has been addressed (and sometimes tolerated) in Africa, Asia, Latin America and East & Central Europe to interrogate government policy and question development discourse and practice.

The Chinese-Sir John Francis Davis 1836

Tropical Montane Cloud Forests-L. A. Bruijnzeel 2011-01-06 This volume represents a uniquely comprehensive overview of our current knowledge on tropical montane cloud forests. 72 chapters cover a wide spectrum of topics including cloud forest distribution, climate, soils, biodiversity, hydrological processes, hydrochemistry and water quality, climate change impacts, and cloud forest conservation, management, and restoration. The final chapter presents a major synthesis by some of the world's leading cloud forest researchers, which summarizes our current knowledge and considers the sustainability of these forests in an ever-changing world. This book presents state-of-the-art knowledge concerning cloud forest occurrence and status, as well as the biological and hydrological value of these unique forests. The presentation is academic but with a firm practical emphasis. It will serve as a core reference for academic researchers and students of environmental science and ecology, as well as practitioners (natural resources management, forest conservation) and decision makers at local, national, and international levels.

«Remov'd from human eyes»: Madness and Poetry 1676-1774-Natali, Ilaria 2016-08-30 The years 1676 and 1774 marked two turning points in the social and legal treatment of madness in England. In 1676, London's Bethlehem Hospital expanded in grand new premises, and in 1774 the Madhouses Act attempted to limit confinement of the insane. This study explores almost a century of the English history of madness through the texts of five poets who were considered mentally troubled according to contemporary standards: James Carkesse, Anne Finch, William Collins, Christopher Smart and William Cowper were hospitalized, sequestered or exiled from society. Their works cope with representations of insanity, medical definitions or practices, imputed illness, and the judging eye of the 'sane other', shedding new light on the dis/continuities in the notion of madness of this period.

It's Hard to Hug a Cow-Su Colstrom 2016-05-16 It's Hard to Hug a Cow is about a Registered Red Angus cow that is not just seen through the eyes of a human as a milk producing, profit making animal but as a friend. The book starts out with realistic pencil drawings going to cartoon drawings with comedic intent during the anticipated act of hugging this adorable critter. This is a fun book for those who love farm animals not to mention the Registered Red Angus raisers. P.S. My friends call me the Dr. Seuss of cows!

A Source Book in Classical Analysis-Garrett Birkhoff 1973 An understanding of the developments in classical analysis during the nineteenth century is vital to a full appreciation of the history of twentieth-century mathematical thought. It was during the nineteenth century that the diverse mathematical formulae of the eighteenth century were systematized and the properties of functions of real and complex variables clearly distinguished; and it was then that the calculus matured into the rigorous discipline of today, becoming in the process a dominant influence on mathematics and mathematical physics. This Source Book, a sequel to D. J. Struik's Source Book in Mathematics, 1200-1800, draws together more than eighty selections from the writings of the most influential mathematicians of the period. Thirteen chapters, each with an introduction by the editor, highlight the major developments in mathematical thinking over the century. All material is in English, and great care has been taken to maintain a high standard of accuracy both in translation and in transcription. Of particular value to historians and philosophers of science, the Source Book should serve as a vital reference to anyone seeking to understand the roots of twentieth-century mathematical thought.

A Poisoned Season-Tasha Alexander 2009-10-13 London's social season is in full swing, and Victorian aristocracy is atwitter over a certain gentleman who claims to be the direct descendant of Louis XVI and Marie Antoinette. Adding to their fascination with all things French, an audacious cat burglar is systematically stealing valuable items that once belonged to the ill-fated queen. But things take a dark turn. The owner of one of the pilfered treasures is found murdered after the theft is reported in the newspapers, and the mysterious thief develops a twisted obsession with Lady Emily Ashton. It takes all of Lady Emily's wit and perseverance to unmask her stalker and ferret out the murderer, while faced with a brewing scandal that threatens both her reputation and her romance with the dashing Colin Hargreaves.

William Duncan of Metlakatla-Jean Usher 1974 "Duncan, William, lay missionary to the TSIMSHIAN (b at Bishop Burton, Eng 1832; d in Alaska 30 Aug 1918). Trained as a schoolmaster by the Church Missionary Society, Duncan came in 1858 to Fort Simpson, British Columbia. In 1862, during a devastating smallpox epidemic, he led several hundred natives to Metlakatla Pass sites, an ancestral Tsimshian village. Following in part the native [Aboriginal] church policy of Henry Venn, Secretary of CMS, he created a utopian Christian Indian settlement whose success and material prosperity attracted the Northwest Coast Indians. Duncan's ideas and methods were widely imitated and he received international recognition. But the division within the Anglican Church at Victoria brought a new bishop to Metlakatla, who challenged Duncan's authority, his reluctance to offer communion to converts and his emphasis on secular progress. A bitter schism divided the village and in 1887 Duncan and many Tsimshian created a second and independent Christian utopia at New Metlakatla, Annette Island, Alaska."--Canadian Encyclopedia.

Biology of Termites-Kumar Krishna 2012-12-02 Biology of Termites, Volume I presents the anatomical, physiological, biochemical, and behavioral laboratory and field studies of termite species. Although termites have been associated mainly with damage, only less than 10% of the species have actually been recorded as pests, obscuring their important ecological role in the breakdown of vegetative matter and their variety and complexity of structure, physiology, social behavior, caste differentiation and regulation, and other aspects of their biology. After briefly describing the social organization, classification, and research history of termites, the book discusses the external morphology of these species and the similarities and differences between the various groups and the different castes. The subsequent chapters cover the internal anatomy of termites, including their digestive physiology, exocrine and endocrine glands, reproductive and nervous systems, and sense organs. Other chapters deal with the social behavior and communication in the termites and the termite colonizing flights and associated activities. The book also examines caste differentiation in the three lower termite families, namely, Hodotermitidae, Kalotermitidae, and Rhinotermitidae. This volume includes discussions on the rearing, feeding, and biochemistry of termites; the radioisotopes for feeding studies; and the moisture requirements for termite survival. The concluding chapters deal with the introduction or interception of termites by humans and their association with fungi, as well as the relationships of termite hosts with termitophiles. Termite biologists, zoologists, botanists, ecologists, behaviorists, biochemists, endocrinologists, and economic entomologists will find this volume invaluable.

The Calvary Road and Be Filled Now-Roy Hession 2017-11-24 The Calvary Road is the British evangelist, Roy Hession's best known book. It is a simple practical exposition of the essential role and the fruit of humility and repentance in the Christian life. It has changed lives and ministries. The chapters are: Brokenness; Cups Running Over; The Way of Fellowship; The Highway of Holiness; The Dove and the Lamb; Revival in the Home; The Mote and the Beam; Are You Willing to be a Servant?; The Power of the Blood of the Lamb; and Protesting Our Innocence? Christians of all persuasions appreciate the importance of being filled with the Holy Spirit. The Hessions write "the apostolic injunction, 'Be filled with the Spirit' (Eph. 5. 18) still stands binding on every believer, and he ignores it at the peril of missing the fruitfulness and joy which such fullness brings." This book describes the person of the Holy Spirit and how and why the Christian is to be filled with the Spirit.
