African American Rural Education-Crystal R. Chambers 2020-11-09 Despite comprising the largest minority in rural settings, the literature to date largely subsumes African American rural students into a broader set of students, with a primarily urban focus. This volume focuses on the higher education pathways of rural African American students and highlights their experiences in US colleges and universities.

Education at a Glance 2020 OECD Indicators-OECD 2020-09-08 Education at a Glance is the authoritative source for information on the state of education around the world. It provides data on the structure, finances and performance of education systems across OECD countries and a number of partner economies. The 2020 edition includes a focus on vocational education and training, investigating participation in vocational education and training at various levels of education, the labour market and social outcomes of vocational graduates as well as the human and financial resources invested in vocational institutions.

The Rural School Principalship-Aimee Howley 2005

Education at a Glance 2015-OCDE, 2016-02-16 Education at a Glance : OECD Indicators is the authoritative source for accurate information on the state of education around the world. It provides data on the output of educational institutions ; the impact of learning across countries ; the financial and human resources invested in education ; access, participation and progression in education ; and the learning environment and organisation of schools. The 2015 edition introduces more detailed analysis of participation in early childhood and tertiary levels of education. The report also examines first generation tertiary-educated adults' educational and social mobility, labour market outcomes for recent graduates, and participation in employer-sponsored formal and/or non-formal education. Readiness to use information and communication technology for problem solving in teaching and learning is also examined. The publication provides indicators on the impact of skills on employment and earnings, gender differences in education and employment, and teacher and school leader appraisal systems. For the first time, this edition includes highlights of each indicator inside the book. The report covers all 34 OECD countries and a number of partner countries (Argentina, Brazil, China, Colombia, India, Indonesia, Latvia, Russian Federation, Saudi Arabia and South Africa, and for the first time, Costa Rica and Lithuania).

Ethical Issues in Rural Health Care-Craig M. Klugman 2013-01-02 This volume initiates a much-needed conversation about the ethical and policy concerns facing health care providers in the rural United States. Although 21 percent of the population lives in rural areas, only 11 percent of physicians practice there. What challenges do health care workers face in remote locations? What are the differences between rural and urban health care practices? What particular ethical issues arise in treating residents of small communities? Craig M. Klugman and Pamela M. Dalinis gather philosophers, lawyers, physicians, nurses, and researchers to discuss these and other questions, offering a multidisciplinary overview of rural health care in the United States. Rural practitioners often practice within small, tight-knit communities, socializing with their patients outside the examination room. The residents are more likely to have limited finances and to lack health insurance. Physicians may have insufficient resources to treat their patients, who often have to travel great distances to see a doctor. The first part of the book analyzes the differences between rural and urban cultures and discusses the difficulties in treating patients in rural settings. The second part features the personal narratives of rural health care providers, who share their experiences and insights. The last part introduces unique ethical challenges facing rural health care providers and proposes innovative solutions to those problems. This volume is a useful resource for bioethicists, members of rural bioethics committees and networks, policy makers, teachers of health care providers, and rural practitioners themselves.

A Pragmatic Analysis of Rural School Consolidation-Stanley Roy Jonjak 2003

The Rural School in the United States-John Coulter Hockenberry 1908
