How to Make a Journal of Your Life-Dan Price 2011-10-05 When nomad artist and free spirit Dan Price began jotting down his musings in the form of whimsical drawings and inspired prose, he hardly could have imagined that his self-published journal-zine, the MOONLIGHT CHRONICLES, would earn him a cult following across the country. Now in its twentieth edition, the MOONLIGHT CHRONICLES has brought Dan's creed of "truth, beauty, and really big sabbaticals from the convention of life" to thousands across the country. With such a following, Dan figured it was time to collect his offbeat observations into book form in hopes of inspiring other would-be journal writers to take pen, camera, and brush in hand. As Dan is fond of noting "Seems there's tons of empty journal books, but not too many on how to fill 'em up!" In HOW TO MAKE A JOURNAL, Dan answers the call, teaching readers how to tap into those pent-up creative juices and collect their life experiences on paper.

Writing Away-Lavinia Spalding 2009-08-01 Two major trends have recently swept the travel world: the first, an overwhelming desire (thanks to Elizabeth Gilbert's bestseller, Eat, Pray, Love) to write one's own memoir; the second, an explosion of social media, blogs, twitter and texts, which allow travelers to document and share their experiences instantaneously. Thus, the act of chronicling one's journey has never been more popular, nor the urge stronger. Writing Away: A Creative Guide to Awakening the Journal-Writing Traveler, will inspire budding memoirists and jetsetting scribes alike. But Writing Away doesn't stop there—author Lavinia Spalding spins the romantic tradition of keeping a travelogue into a modern, witty adventure in awareness, introducing the traditional handwritten journal as a profoundly valuable tool for self-discovery, artistic expression, and spiritual growth. Writing Away teaches you to embrace mishaps in order to enrich your travel experience, recognize in advance what you want to remember, tap into all your senses, and connect with the physical world in an increasingly technological age. It helps you overcome writer's block and procrastination; tackle the discipline, routine, structure, and momentum that are crucial to the creative process; and it demonstrates how traveling—while keeping a journal along the way—is the world's most valuable writing exercise.

Journal Writing in Second Language Education-Christine Pearson Casanave 2011-02-04 Journal writing is not new--journals have been around for centuries. More recently, journals have been viewed as a means of scaffolding reflective teaching and encouraging reflectivity in research processes. As a result, some educators may ask, "What more do we need to know?" Those likely to raise this question are probably not thinking of the explosive growth of reflective writing enabled by social networking on the Web, the blogs and other interactive e-vehicles for reflection on experiences in our literate, "real," and virtual lives This revisiting of journal writing from a 21st century perspective, informed by relevant earlier literature, is what Christine Pearson Casanave guides readers through in this first book-length treatment of the use of journal writing in the contexts of language learning, pre and in-service teaching, and research. Casanave has put together existing ideas that haven't been put together before and has done it not as an edited collection, but as a single-authored book. She has done it in a way that will be especially accessible to teachers in language teacher education programs and to practicing teachers and researchers of writing in both second and foreign language settings, and in a way that will inspire all of us to think about, not just do, journal writing. Those who have never attempted to use journals in their classes and own lives, as well as others who have used it with mixed results, will probably be tempted to try it in at least some of the venues Casanave provides guidance for. Those already committed to journal writing will very likely find in this book new reasons for expanding and enhancing their use of journals.

The Daily Stoic-Ryan Holiday 2016-10-18 From the team that brought you The Obstacle Is the Way and Ego Is the Enemy, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Genre, Frames and Writing in Research Settings-Brian Paltridge 1997-01-01 This book presents a perspective on genre based on what it is that leads users of a language to recognise a communicative event as an instance of a particular genre. Key notions in this perspective are those of prototype, inheritance, and intertextuality; that is, the extent to which a text is typical of the particular genre, the qualities or properties that are inherited from other instances of the communicative event, and the ways in which a text is influenced by other texts of a similar kind. The texts which form the basis of this discussion are drawn from experimental research reporting in English. Contents: 1. Introduction 2. Approaches to genre 3. Genre and frames 4. A sample analysis: Writing up research 5. Summary and conclusions.

Author of 60 published books, the author speaks to junior scholars and graduate students about the process and products of academic writing. He differentiates between business writing skills for memos, proposals, and reports, and the scholarly writing that occurs in journals and books. He has suggestions for getting the "turgid" out of turgid academic prose and offers suggestions on how to best structure various forms of documents for effective communication. Written in Berger's friendly, personal style, he shows by example that academics can write good, readable prose in a variety of genres.

Journal Keeping-Dannelle D. Stevens 2009 This book is written by the authors of the acclaimed ""Introduction to Rubrics"". It has sold over 3,000 in 12 months. There is a major growth of interest in keeping journals or diaries for personal reflection and growth; and as a teaching tool. It will appeal to college faculty, administrators and teachers. One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development - particularly for those in academic life; and demonstrates journals' potential to foster college students' learning, fluency and voice, and

creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.

The chapters are ordered to develop a systematic approach to the process, including such topics as: The writer The reader What's the contribution? Beginning work Refining the argument Engaging with reviewers and editors Writing for Peer Reviewed Journals uses a wide range of multi-disciplinary examples from the writing workshops the authors have run in universities around the world: including the UK, Canada, Australia, New Zealand, Ireland, South Africa, Norway, Sweden, Denmark and the United States. This international approach coupled with theoretically grounded strategies to guide the authoring process ensure that people at all stages of their career are addressed.
