So Beautiful-Leonard Sweet 2009-04-01 More than 50 years ago scientists made a remarkable discovery, proclaiming, "We have found the secret of life ... and it's so pretty!" The secret was the discovery that life is helixical, two strands wound around a single axis—what most of us know today as the model for DNA. Over the course of his ministry, author Leonard Sweet has discovered that this divine design also informs God's blueprint for the church. In this seminal work, he shares the woven strands that form the church: missional, relational, and incarnational. Sweet declares that this secret is not just pretty, but beautiful. In fact, So Beautiful! Using the poignant life of John Newton as a touchstone, Sweet calls for the re-union of these three essential, complementary strands of the Christian life. Far from a novel idea, Sweet shows how this structure is God's original intent, and shares the simply beautiful design for His church.
