The Origin of God-Laurence Gardner 2010 Belief in the One male God of Judaism, Christianity and Isl m can be traced back for something over 2,500 years to the time when the Hebrew scripture of Genesis was compiled in the 6th century BC. The narrative content of Genesis was clearly derived from older traditions but, on the face of it, we have no documentary evidence from any other source of a monotheistic culture in respect of this particular God from before that date. In The Origin of God, written but not published before his untimely death in August 2010, Laurence Gardner, author of the international bestsellers Bloodline of the Holy Grail, Genesis of the Grail Kings and Lost Secrets of the Sacred Ark, undertakes a biographical exploration of the deiform character variously known as Yahweh, All h, or simply The Lord. He seeks to uncover and evaluate His original identity, as against His eventual religiously motivated portrayals. Beginning with documents that pre-date the Bible, Laurence Gardner's final quest was to discover from all available sources what evidence there is, if any, to support the long-standing and widespread notion of God's existence, posing the question: If the Bible had never been written, would we know about God from any more original source?

Genesis of the Grail Kings- From beneath the windswept sands of ancient Mesopotarnia comes the documented legacy of the creation chamber of the heavenly Anunnaki. Here is the story of the clinical cloning of Adam and Eve, which predates Bible scripture by more than 2,000 years. From cuneiform texts, cylinder seals, and suppressed archives, best-selling historian and distinguished genealogist Laurence Gardner tells the ultimate story of the alchemical bloodline of the Holy Grail, including: -Hidden secrets of the Tables of Testimony -Anti-gravitational science of the pyramid pharaohs -A history of God and the lords of eternity -Disclosures of the Phoenix and the Philosophers' Stone -The superconductive powers of monatomic gold -A genetic key to the evolutionary Missing Link -Active longevity and the Star Fire magic of Eden

Bloodline of the Holy Grail-Laurence Gardner 2004-09-01 From royal and suppressed archives comes documented proof of the heritage of Jesus in the West and the long awaited discovery of the Holy Grail. In fulfilling this time-honored quest, penetrating new light is cast upon the Grail Code of Service and the venerated feminine element, upheld in chivalry but forsaken by the Church in order to forge a male dominated society. This unique work offers revelatory insight concerning the descendant heirs of Jesus and his brother James while, in documenting a hidden legacy of the Messiah, it unveils hitherto guarded facts about characters such as Mary Magdalene and Joseph of Arimathea. Tracing the sacred lineage through centuries of persecution and Inquisition, Bloodline of the Holy Grail reveals a systematic suppression of authentic records and a strategic manipulation of the New Testament Gospels. Featuring all the charm and adventure of Arthurial romance, coupled with enthralling Rosicrucian and Templar disclosures, this extraordinary work has a cutting edge of intrigue that removes the established blanket of enigma to expose one of the greatest conspiracies ever told.

Lost Secrets of the Sacred Ark-Laurence Gardner 2004 The author of Bloodline of the Holy Grail focuses on another lost treasure of the bible, the Ark of the Covenant, retracing its path through history, and its mysterious disappearance, using biblical and Rosicrucian texts to unlock its secrets. Original.

Realm of the Ring Lords-Laurence Gardner 2003-01-01 The magical history of the Ring Lords, alluded to in J.R.R. Tolkein's The Lord of the Rings, has been largely consigned to legend and half-remembered battles between good and evil. Shrouded in supernatural enigma, its legacy lives on in fascinating tales of fairies, elves, witches, and vampires. The most popular Grail stories relate to Arthurian tales of Guinevere's golden Ring and the great iron-clad Ring of Camelot—the Knights of the Round Table. When this Ring was broken, the land fell into chaos and the forces of darkness reigned over the earth, starlight, and forest. Why do we sense deeper truths behind the mysteries of the Ring and the Grail? Why have their common enhancements been distorted and hidden? The ancient guardians of our culture have never featured positively in academic teachings, for they were the Shining Ones: the real progenitors of our heritage. Instead, their reality was quashed from the earliest days of Inquisitional suppression and the literal diminution of their figures caused a parallel diminishing of their history. In truth, however, the sovereign legacy of our culture comes from a place and time that might just as well be called Middle-earth as by any other name. It lingers beyond the twilight portal in the long distant realm of the Ring Lords.

The Dragon Legacy-Nicholas de Vere 2004 A collection of essays on the Deresthai culture with accompanying extracts from the Dragon Court archives comprising the official history of the Dragon peoples.

The Shadow of Solomon-Laurence Gardner 2007-03-31 What ancient mystery lies behind the creation of Freemasonry- a lost secret so powerful that the Brotherhood itself has been on a quest to find it for three hundred years? For those of us lacking the resources to excavate occult secrets hidden beneath the Louvre or the Rosslyn Chapel, or within CIA Headquarters, The Shadow of Solomon is the next best thing. These pages reveal the true secrets of Solomon, from masonry to magic. Laurence Gardner's personal experience as both a Templar and a mason makes this fascinating journey through the history of the Bible, Knights Templar, Freemasons, and everything that followed all the more striking and immediate. Is it an accident that the world's attention should be turned to these men and their strange lexicon of symbols and secrets RIGHT NOW? What will happen when we understand that there is something we all have in common that is greater than nation or religion? Freemasons are often said to be the world's most influential secret society, yet the story of this enigmatic fraternity is wrapped in mystery and intrigue. Their involvement in shaping political world events has stretched over centuries, even to the extent that masonic principles lie beneath the establishment of the United States and its Constitution. The Shadow of Solomon is the definitive insider's account of the startling truth behind masonic history and the centuries-long search that the fraternity has undertaken to find its own lost secrets.

Reproduction-Nick Hopwood 2018-11-30 From contraception to cloning and pregnancy to populations, reproduction presents urgent challenges today. This field-defining history synthesizes a vast amount of scholarship to take the long view. Spanning from antiquity to the present day, the book focuses on the Mediterranean, western Europe, North America and their empires. It combines history of science, technology and medicine with social, cultural and demographic accounts. Ranging from the most intimate experiences to planetary policy, it tells new stories and revises received ideas. An international team of scholars asks how modern 'reproduction' - an abstract process of perpetuating living organisms - replaced the old 'generation' - the active making of humans and beasts, plants and even minerals. Striking illustrations invite readers to explore artefacts, from an ancient Egyptian fertility figurine to the announcement of the first test-tube baby. Authoritative and accessible, Reproduction offers students and non-specialists an essential starting point and sets fresh agendas for research.

Revelation of the Devil-Laurence Gardner 2012-06 This is Laurence Gardner's final book, written shortly before his death in 2010 and is the accompanying book to his Origin of God (published 2011 by dash house publishing). Together with Origin of God, this book outlines an irrefutable and searing indictment of conventional belief and exposes the evils and absurdities perpetuated over the millenia in the name of Christianity. In Revelation of the Devil, Laurence Gardner traces the history of the Devil, from its roots in Mesopotamia and the Old Testament all the way up to the modern world of today. Travelling through the New Testament, as well as the Koran, and then passing in turn through the Inquisitions, the Reformation and the Enlightenment, he unmasks what he has called "the myth of evil and the conspiracy of Satan." For nearly 2,000 years a supernatural entity known as the Devil has been held responsible by Church authorities for bringing sin and wickedness into the world. Throughout this period, the Devil has been portrayed as a constant protagonist of evil, although his origin remains a mystery and his personality has undergone many interpretive changes, prompting questions such as: If God is all good and all powerful, then why does evil exist? How can it exist? If God created everything, then where did the Devil come from? If the Devil exists, then why does he not feature in any pre-Christian document? Revelation of the Devil follows the Devil's sinister history, in the manner of a biography, from his scriptural introduction to the dark satanic cults of the present day. In a strict chronological progression, we experience the mood of each successive era as the Devil's image was constantly manipulated to suit the changing motives of his creators in their bid for threat-driven clerical control.

The Da Vinci Fraud-Robert M. Price 2005 Was Leonardo Da Vinci a member of the Priory of Sion, a secret society reaching all the way back to the Crusades? Does his famous painting, The Last Supper, contain a hidden code about this society's most precious secret? Did Jesus father children by Mary Magdalene? What was the Holy Grail? The best-selling novel The Da Vinci Code by Dan Brown has stirred the popular imagination by cleverly interweaving theories about such questions with a fast-paced fictional narrative. Many readers have been so swept away by the drama of this murder mystery that they have accepted Brown's fictional reconstruction of Christian origins and medieval history as established fact. New Testament scholar Robert M. Price, a member of the Jesus Seminar, examines the creative uses of history in Brown's novel, showing that, however intriguing Brown's fictional speculations may be, the real facts behind the novel are even more fascinating. What does the best historical evidence say about the possibility that Jesus might have survived the crucifixion? How did the Gospels come to be accepted as the established accounts of Jesus' life and why were other Gnostic traditions suppressed? How did the Roman Emperor Constantine figure in the development of Christian dogma? What was Mary Magdalene's role in early Christianity and how was it adapted in later attempts to develop a sacred feminine element in Christianity? These are some of the important questions about Christianity that Dr. Price pursues in this engrossing discussion of Christian history. Price combines sophisticated historical analysis with completely accessible and witty prose in this enlightening, factually based analysis of Brown's speculative bestseller. Robert M. Price (Selma, NC) is the editor (with Jeffery Jay Lowder) of The Empty Tomb: Jesus Beyond the Grave and The Journal of Higher Criticism. He is also the author of The Incredible Shrinking Son of Man: How Reliable Is the Gospel Tradition?, Deconstructing Jesus, The Widow Traditions in Luke-Acts, and Beyond Born Again.

Jesus and the Lost Goddess-Timothy Freke 2011-08-10 Why Were the Teachings of the Original Christians Brutally Suppressed by the Roman Church? • Because they portray Jesus and Mary Magdalene as mythic figures based on the Pagan Godman and Goddess • Because they show that the gospel story is a spiritual allegory encapsulating a profound philosophy that leads to mythical enlightenment • Because they have the power to turn the world inside out and transform life into an exploration of consciousness Drawing on modern scholarship, the authors of the international bestseller The Jesus Mysteries decode the secret teachings of the original Christians for the first time in almost two millennia and theorize about who the original Christians really were and what they actually taught. In addition, the book explores the many myths of Jesus and the Goddess and unlocks the lost secret teachings of Christian mysticism, which promise happiness and immortality to those who attain the state of Gnosis, or enlightenment. This daring and controversial book recovers the ancient wisdom of the original Christians and demonstrates its relevance to us today. From the Trade Paperback edition.

Counterknowledge-Damian Thompson 2008-09-17 An important and compelling book on the viral dissemination of misinformation in today's world. We are being swamped with dangerous nonsense. From 9/11 conspiracy theories to Holocaust denial to alternative medicine, we are all experiencing an epidemic of demonstrably untrue descriptions of the world. For Damian Thompson, the misinformation industry is wreaking havoc on the once-lauded virtues of science and reason. Unproven theories and spurious claims are forms of "counterknowledge," and, helped by the Internet, they are creating a global generation of misguided adherents who repeat these untruths and lend them credence. Thompson explores our readiness to accept falsehoods and the viral role of technology in spreading quack remedies, pseudo-history, and creationist fanaticism. Following in the footsteps of Richard Dawkins's *The God Delusion*, Sam Harris's *The End of Faith*, and Christopher Hitchens's *God Is Not Great*, Counterknowledge is a brilliant defense of scientific proof in an age of fabrication.

Svali Speaks - Breaking Free of Cult Programming-Svali 2016-05-21 In order to understand Illuminati cult programming, it is first necessary to understand a bit about the structure and philosophy of the organization. The Illuminati are a group of people who follow a philosophy known as "Illuminism" or "enlightenment". The Illuminati were named several hundred years ago, but trace their roots and history to the ancient mystery religions of Egypt, ancient Babylon, and even Mesopotamia. Out of these ancient religions, which were practiced secretly over hundreds and hundreds of years, there arose esoteric groups which continued to practice the rites, traditions, and enculturation brought in from the original groups. Over the centuries, these groups practiced openly in some countries, and covertly in countries where Christianity or other religions opposed their practices. Some of the groups which came out of these ancient roots included the order of the Knights Templar, Rosicrucian's, Baphetomism, and Druidic cults. These groups were the forerunners, or roots, of modern day Illuminism. The original Illuministic leaders chose to take what they felt were the best practices of each root religion, combine them into principles, then organized these principles according to specific guidelines. Modern day Illuminism is a philosophy funded by the wealthy, but practiced in all social strata. It is a philosophy whose tenets have spread across the world. It started with the German branch of Rosicrucian's, spread to England, then came to the United States with the first settlers. The Illuminati have 3 main branches: the Germanic branch, which oversees the others, the British branch, which handles finances, and the French/Russian branch. All 3 branches are represented in both the United States and Canada, as well as every country in the world.

Quantum-Jim Al-Khalili 2012-10-25 From Schrodinger's cat to Heisenberg's uncertainty principle, this book untangles the weirdness of the quantum world. Quantum mechanics underpins modern science and provides us with a blueprint for reality itself. And yet it has been said that if you're not shocked by it, you don't understand it. But is quantum physics really so unknowable? Is reality really so strange? And just how can cats be half-alive and half-dead at the same time? Our journey into the quantum begins with nature's own conjuring trick, in which we discover that atoms -- contrary to the rules of everyday experience -- can exist in two locations at once. To understand this we travel back to the dawn of the twentieth century and witness the birth of quantum theory, which over the next one hundred years was to overthrow so many of our deeply held notions about the nature of our universe. Scientists and philosophers have been left grappling with its implications every since.

Two Trains Running-August Wilson 2019-08-06 From the Pulitzer Prize-winning author of *Fences* and *The Piano Lesson* comes a "vivid and uplifting" (Time) play about unsung men and women who are anything but ordinary. August Wilson established himself as one of our most distinguished playwrights with his insightful, probing, and evocative portraits of Black America and the African American experience in the twentieth century. With the mesmerizing *Two Trains Running*, he crafted what Time magazine called "his most mature work to date." It is Pittsburgh, 1969, and the regulars of Memphis Lee's restaurant are struggling to cope with the turbulence of a world that is changing rapidly around them and fighting back when they can. The diner is scheduled to be torn down, a casualty of the city's renovation project that is sweeping away the buildings of a community, but not its spirit. For just as sure as an inexorable future looms right around the corner, these people of "loud voices and big hearts" continue to search, to father, to persevere, to hope. With compassion, humor, and a

superb sense of place and time, Wilson paints a vivid portrait of everyday lives in the shadow of great events.

Blue Blood, True Blood-Stewart A. Swerdlow 2002-01-01

The Return of the Serpents of Wisdom-Mark Amaru Pinkham 2011-03-10 According to ancient records, the patriarchs and founders of the early civilizations in Egypt, India, China, Peru, Mesopotamia, Britain, and the Americas were colonized by the Serpents of Wisdom-spiritual masters associated with the serpent-who arrived in these lands after abandoning their beloved homelands and crossing great seas. While bearing names denoting snake or dragon (such as Naga, Lung, Djedhi, Amaru, Quetzalcoatl, Adder, etc.), these Serpents of Wisdom oversaw the construction of magnificent civilizations within which they and their descendants served as the priest kings and as the enlightened heads of mystery school traditions. The Return of the Serpents of Wisdom recounts the history of these "Serpents"-where they came from, why they came, the secret wisdom they disseminated, and why they are returning now.

Montauk-Stewart Swerdlow 1998-01-01 Relates the author's experience of alien abduction and government manipulation as he discovered his role in a time-travel experiment called the Montauk Project

The Grail Enigma-Laurence Gardner 2009-02-01 Much has been written about the marriage of Jesus and Mary Magdalene, who Jesus was, whether he and Mary had children, and what became of them. The Grail Enigma is the first book that can answer those questions in amazingly accurate detail. Unique to any book on the subject, this contains full genealogical charts that trace the messianic offspring, historically named Tamar, Joshua and Joseph, and their lineage through 600 years through to Arthur Pendragon.Gardner's unrivalled access to Vatican archives reveal Christian manuscripts dating back to the 2nd century that document Mary as the 'bride of Christ' and Jesus's heirs who became very influential within the Roman Empire. In the years following the crucifixion they were hunted down. Four hundred years later, the New Testament gospels of Mathew, Mark and Luke were compiled removing all reference to the messianic marriage and bloodline, but the older gospels still document their legacy.Tracing the messianic line through 600 years since Jesus's crucifixion, Gardner explains how documentation of the messianic line moved into Grail romance literature of King Arthur, and how the mythology of Arthur was therefore aligned with that of Jesus in messianic tradition as both Once and Future Kings.Using new and previously unpublished documentary archives, The Grail Enigma traces the detailed history of the descendants of Jesus and how the main ambition of the Roman Church, was to destroy the most fundamental elements of the original Christian movement.
