Acculturation-Jack Merton 2014-01-01 Acculturation has been broadly defined as any change that results from contact between individuals, or groups of individuals, and those from different cultural backgrounds. The conflict and stress that arises adversely affects the health and status of the immigrant, although native populations may also be affected. Current research focuses mainly on behaviors, beliefs and attitudes found in different social, ethnic, religious, age, and other groups. However, there is no general consensus as to the components or characteristics of acculturation, or how they should be measured and assessed. Other fundamental concerns include the wide variability in the measurement of human thought

and response, the lack of generalizability and uniformity evidenced by the many survey instruments and scales used for different groups and populations today, and the difficulty in demonstrating a clear relationship between components of acculturation and health and other outcomes. This book discusses the psychology, processes and global perspectives of acculturation.

Writing Literature Reviews-Jose L Galvan 2016-08-17 • Guides students in the preparation of literature reviews for term projects, theses, and dissertations. • Most chapters are conveniently divided into easy-to-follow guidelines, sequential steps, or checklists. Numerous examples throughout the book show students what should and should not be done when writing reviews. • Emphasizes critical analysis of reports of empirical research in academic journals—making it ideal as a supplement for research methods courses. This book makes it possible for students to work independently on a critical literature review as a term project. • Nine model literature reviews at the end of the book provide the stimulus for homework assignments and classroom discussions. • The activities at the end of each chapter keep students moving toward their goal of writing a polished, professional review of academic literature. • Most examples include material from recently published research. Includes nine model literature reviews for discussion and evaluation.

What's Your Story?-Marion Dane Bauer 1992-04-20 The award-winning author “provides mentoring and practical and technical advice in this handy how-to book . . . as useful to teachers as to young writers” (School Library Journal, starred review). Storytelling is a universal experience. From an early age, we begin to shape our own world by crafting tales. But learning to tell—and write—a good story isn’t easy. It takes dedication and practice, just like for a musician or an athlete, and it can be just as rewarding to accomplish as winning a game or mastering an instrument. It’s the kind of work that feeds our souls and makes us glad to be alive. In What’s Your Story?, Newbery Medal-winning author Marion Dane Bauer discusses how to write fiction from beginning to end, including creating a story plan, choosing the best idea, bringing characters to life, deciding on a point of view, creating realistic dialogue, keeping readers hooked, and revising and polishing the finished product. “Her last comment is telling: ‘Knowing your craft

can help you tell a story. But only by taking risks can you make art.' After many pages of provocative information and straightforward counsel, that sentence may be the one to launch youngsters to the challenge. The book speaks directly to young writers, but many adults (teachers, librarians, reviewers, editors, would-be writers) will also find this sensible dissection of the storytelling process invaluable."—Kirkus Reviews (starred review) "A pragmatic, organized approach to story writing . . . the exercises and thought processes introduced as groundwork come across as stimulating rather than tedious and may serve to hone analytical skills as well as inspire even the most reluctant writers to try their hand."—Publishers Weekly

StrengthsQuest-Donald O. Clifton 2016-01-01 Students who use their natural talents achieve the most --- but they need to know what those talents are. StrengthsQuest includes the Clifton StrengthsFinder, an online assessment that reveals students' top five themes of talent. And StrengthsQuest also helps students make the most of those talents. Students and learners of all ages continually face the challenges of gaining direction, making decisions, and building self-confidence. Fortunately, the keys to successfully meeting these challenges — your own natural talents — already exist within you. Through these talents, you will produce your greatest achievements. Over the course of 30 years, Gallup conducted millions of psychological interviews and identified 34 themes of talent that are indicative of success. In the StrengthsQuest program, Gallup offers you the opportunity to discover talents from your top five themes and build on them to achieve academic, career, and personal excellence. More than 100,000 students have benefited from the program. Your quest starts with the Clifton StrengthsFinder, a 30-minute assessment that reveals your top five themes of talent. This online assessment is your entryway to a variety of experiences that will help you discover your greatest talents and develop strengths. You'll gain access to action items specific to your top themes, covering general academic life, study habits, relationships, and career. You'll also be challenged to think about applying your talents for success in other settings, such as

on projects and teams and in leadership. StrengthsQuest was written by the late Donald O. Clifton, who was the former chairman of Gallup; coauthor of the bestseller *Now, Discover Your Strengths*; and recognized as the Father of Strengths-Based Psychology and the late Edward “Chip” Anderson, who taught education, psychology, and leadership at UCLA and Azusa Pacific University. Revised portions of the text were written by Laurie A. Schreiner, who has taught psychology and higher education at Azusa Pacific University and Eastern University. The White Ally Toolkit Workbook-David Camp 2018-12-03 How does a white person who aspires to be an ally against racism talk to their friends and family who are in denial about racism against people of color? The White Ally Toolkit Workbook gives people concrete guidance about how to respond a wide variety of statements that racism-denying white folks make everyday. In addition, the workbook presents a sequenced curriculum that an ally can use if they want to purposefully change someone in the circle of influence as well as reflection and self-assessment tools that will help allies see themselves more clearly. These tools help allies refine their interactions with others so they can move the needle on the large-scale racism denial among the whites about American's most pressing and long-standing problem.
