Spirit Machines-Robert Crawford 2011-03-31 SPIRIT MACHINES, Robert Crawford's fourth collection, attends imaginatively to the fusion of spiritual experience and the insistently material world. In several of the poems, emotional and religious insights merge lyrically with modern technologies of information. The title sequence deals with bereavement and memorializes the poet's father, who died in 1997, while the serio-comical catechism of 'A Life-Exam' arises from the experience of hospitalisation. The imaginative, 360-line tour de force 'Impossibility' presents a swirling underwater world imaging the heroic struggle of the nineteenth-century writer and mother, Margaret Oliphant. While some of the poems communicate a sense of hurt and loss, others are insuperably comic, giving the collection an ambitious range and vitality. Throughout the book, Robert Crawford's alert sense of Scotland provides a source and sounding-board for poems -lyrics, ballads, verse narratives and prose poems - that are finely nuanced, moving, and excitingly resourceful.

The Age of Spiritual Machines-Ray Kurzweil 2000-01-01 Ray Kurzweil is the inventor of the most innovative and compelling technology of our era, an international authority on artificial intelligence, and one of our greatest living visionaries. Kurzweil's prophetic blueprint for the future takes us through the advances that inexorably result in computers exceeding the memory capacity and computational ability of the human brain by the year 2020 (with human-level capabilities not far behind); in relationships with automated personalities who will be our teachers, companions, and lovers; and in information fed straight into our brains along direct neural pathways. Optimistic and challenging, thought-provoking and engaging, The Age of Spiritual Machines is the ultimate guide on our road into the next century. From the Trade Paperback edition.

Real Ghosts, Restless Spirits, and Haunted Places-Brad Steiger 2012-09-26 The culmination of Brad Steiger's 50 years of paranormal research, this book is a bold telling of true ghost stories and firstperson encounters with the supernatural. Arranged topically, it covers every sort of ghost and haunting: poltergeists, shadow beings, and phantoms alongside haunted apartments, hotels, and trains. From ghosts that still haunt Ohio's State Reformatory, otherwise known as Shawshank, to Abe Lincoln's regular consultation with mediums, this compendium delves into the true scary stories from both historical documents and personal accounts. In its 30 chapters, spirits represented include the good ("Ghosts that Saved Lives"), the bad ("Invisible Home Wreckers"), and the ugly ("Demonic Spirits That Whisper Commands to Kill"). The book goes on to unearth the ghastly goingson and macabre manifestations at haunted places such as museums, churches, graveyards, restaurants, and sacred sites while also instructing how to perform a cleansing ritual to rid a home of unwanted spectral visitors. This second edition is updated to include new stories and compelling evidence of both the existence of ghosts and proof of hauntings that will entertain, induce chills, and make the doubtful believe.

Britain's War Machine-David Edgerton 2011-09-09 The familiar image of the British in the Second World War is that of the plucky underdog taking on German might. David Edgerton's bold, compelling new history shows the conflict in a new light, with Britain as a very wealthy country, formidable in arms, ruthless in pursuit of its interests, and in command of a global production system. Rather than belittled by a Nazi behemoth, Britain arguably had the world's most advanced mechanized forces. It had not only a great empire, but allies large and small. Edgerton shows that Britain fought on many fronts and its many home fronts kept it exceptionally well supplied with weapons, food and oil, allowing it to mobilize to an extraordinary extent. It created and deployed a vast empire of machines, from the humble tramp steamer to the battleship, from the rifle to the tank, made in colossal factories the world over. Scientists and engineers invented new weapons, encouraged by a government and prime minister enthusiastic about the latest technologies. The British, indeed Churchillian, vision of war and modernity was challenged by repeated defeat at the hands of less well-equipped enemies. Yet the end result was a vindication of this vision. Like the United States, a powerful Britain won a cheap victory, while others paid a great price. Putting resources, machines and experts at the heart of a global rather than merely imperial story, Britain's War Machine demolishes timeworn myths about wartime Britain and gives us a groundbreaking and often unsettling picture of a great power in action.

Machines Are Frozen Spirit-Mikael Hard 1994-02-24

Tears of Longing-Christine Yano 2020-03-23 Enka, a sentimental ballad genre, epitomizes for many the *nihonjin no kokoro* (heart/soul of Japanese). To older members of the Japanese public, who constitute enka's primary audience, this music—of parted lovers, long unseen rural hometowns, and self-sacrificing mothers—evokes a direct connection to the traditional roots of “Japaneseness.” Overlooked in this emotional invocation of the past, however, are the powerful commercial forces that, since the 1970s, have shaped the consumption of enka and its version of national identity. Informed by theories of nostalgia, collective memory, cultural nationalism, and gender, this book draws on the author's extensive fieldwork in probing the practice of identity-making and the processes at work when Japan becomes “Japan.”

The Ashgate Research Companion to Paranormal Cultures-Dr Olu Jenzen 2014-01-28 Despite the much vaunted ‘end of religion’ and the growth of secularism, people are engaging like never before in their own ‘spiritualities of life’. Across the West, paranormal belief is on the rise. The Ashgate Research Companion to Paranormal Cultures brings together the work of international scholars across the social sciences and humanities to question how and why people are seeking meaning in the realm of the paranormal, a heretofore subjugated knowledge. With contributions from the UK and other European countries, the USA, Australia and Canada, this ground-breaking book attends to the paranormal as a position from which to critique dominant forms of knowledge production and spirituality. A rich exploration of everyday life practices, textual engagements and discourses relating to the paranormal, as well as the mediation, technology and art of paranormal activity, this book explores themes such as subcultures and mainstreaming, as well as epistemological, methodological, and phenomenological questions, and the role of the paranormal in social change. The Ashgate Research Companion to Paranormal Cultures constitutes an essential resource for those interested in the academic study of cultural engagements with paranormality; it will appeal to scholars of cultural and media studies, popular culture, sociology, cultural geography, literature, film and music.

The Age of the Spirit-Phyllis Tickle 2014-01-07 A thousand years ago, the church experienced a time of tremendous upheaval called the Great Schism. The one faith became two churches, East and West, and the course of world history was forever changed. And it all swirled around one Latin word in the Nicene Creed, *filioque*, that indicated the Holy Spirit proceeded both from God the Father “and from the Son.” From the time that phrase was officially instituted onward, the Holy Spirit's place in the Trinity and role in the lives of believers would be fiercely debated, with ramifications being felt through the centuries to this very day. In this fascinating book, readers will encounter not just the interesting historical realities that have shaped our faith today but also the present resurgence of interest in the Holy Spirit seen in many churches across the theological spectrum. Tickle and Sweeney make accessible and relevant the forces behind the current upheaval in the church, taking readers by the hand and leading them confidently into the Age of the Spirit.

The Dodecahedron-Paul Glennon 2005 Twelve narratives, twelve narrators, twelve genres and twelve fictional worlds collide to spectacular effect in Paul Glennon's *The Dodecahedron, or a Frame for Frames*. The second book from the author of *How Did You Sleep?* takes his adventures in short fiction to strange new regions, where professional polygamists, heretical alcoholics and hallucinating arctic explorers find themselves sharing plot points, character traits and dialogue. At turns philosophical and farcical, *The Dodecahedron* makes for intriguing, compelling reading. Each of the book's twelve chapters has its own style and apparent fictional autonomy, but every narrative finds itself corroborated or undermined by the next. Messages found in bottles, computer-generated dialogues and the lamentations of the world's last genie shouldn't have much in common, but their paths constantly intersect in *The Dodecahedron*, creating networks of allusions and contradictions. *The Dodecahedron* revels in the art of story making and proves once and for all that the geometry of the dodecahedron is a rich source of comic fiction.

"A Lack of Offensive Spirit?"-Alan MacDonald 2008 'A Lack of Offensive Spirit?' is a companion volume to Alan MacDonald's recently revised book 'Pro Patria Mori - the 56th (1st London) Division at Gommecourt, 1st July 1916'. The attack of the 46th (North Midland) Division at Gommecourt on the first day of the Battle of the Somme is one of the most controversial incidents of the Great War. The men were effectively accused of cowardice ("A lack of offensive spirit") and of being drunk and the Division was the only one subject to a Court of Inquiry into its conduct. Their commander, Maj. Gen. Eddie Stuart Wortley, was the only General sacked as a result of the catastrophe of the 1st July 1916, a day when the British Army suffered its worst casualties in a single day in its entire history. 'A Lack of Offensive Spirit?' tells the story of Stuart Wortley and the 46th Division from the opening of the war, through the tragedy of the Hohenzollern Redoubt and then, day by day, through the preparations for the attack on Gommecourt. The attack itself is described using the dozens of eyewitness reports collected after the battle as well as official documents and post-war recollections and memoirs. The German perspective on the battle is also extensively covered with information drawn from numerous German unit histories. The conduct of the Court of Inquiry and of Stuart Wortley's desperate efforts to clear his name are covered in detail as well as the tragic fate of the hundreds of officers and men missing, dead and wounded. 'A Lack of Offensive Spirit?' is fully indexed, contains over 20 maps and plans, 45 photographs and contains extensive appendices (including a Roll of Honour of both British and German dead).

The Spirit of Ski Tur Valley-James G. Bennett 2007-10-24 When they acquired their cabin building site in Ski Tur Valley in the fall of 1967, things didn't turn out exactly as they envisioned. Jim and Louise Bennett and their five children thought they were going to build a simple, uncomplicated, leisurely, and totally carefree retreat in the mountains. Most their Valley neighbors felt the same way. But in fact, what they really acquired was forty years of beauty, adventure, excitement and testing. The vision of having a cabin in the mountains was exciting and compelling, but what they actually experienced turned out to be far more so. There were no phones, no power with television and computers, and only seasonal river water when they built their Castle in the Mountain. In the cold of winter it was two miles over snow just to get to their cabin from their parked car and back. They experienced this wilderness area as it went through many changes, beginning as a rough undeveloped development to its present status as a highly coveted and well organized mountain recreational community. The history of that evolution contains volumes of exciting stories of adventure for residents and visitors alike. Mother Nature with the help of Murphy and his law, contributed to these adventures in many unexpected and unusual ways. Everyone was put to the test! That evolution was fueled by what the author calls the Spirit of Ski Tur Valley, a Spirit which bonded members of the community into a vital force that overcame many threats to their pristine retreat. Some of those threats came from Mother Nature herself, in the form of blizzards, floods, and avalanches, but others from high powered land developers intent on destroying the Valley as members knew and loved it. *THE SPIRIT OF SKI TUR VALLEY* is filled with true stories, some poignant, some of evacuation from flooding, of rescuing ill-fortuned hang-gliders, of bears breaking into left over birthday cake. There are tales of Mr. Bates, and Old Blaze, the truck that rescued his owner after ten years of separation. Because he was involved in Ski Tur Valley from its inception in the late sixties, and had lived there full time on a couple of occasions, Bennett was asked to collect stories from community members and present them in book form along with other background history. This remarkable book is based on a family log, kept by his wife Louise, along with contributions from the memories of community members and also from the archives of the Community Association, consisting of legal records, minutes of meeting and records of legal activity. All of these sources combine to unfold the story of *THE SPIRIT OF SKI TUR VALLEY*.

Strongly interdisciplinary, it challenges the prevailing orthodoxy of postcolonial literary theory. An insistence on fieldwork and linguistics makes this book scene-changing in its approach to understanding and reading emerging literature in English.

With Utmost Spirit-Barbara Brooks Tomblin 2004-10-08 Nineteen months before the D-day invasion of Normandy, Allied assault forces landed in North Africa in Operation TORCH, the first major amphibious operation of the war in Europe. Under the direction of Gen. Dwight D. Eisenhower, AUS, Adm. Andrew B. Cunningham, RN, Admiral H. Kent Hewitt, USN, and others, the Allies kept pressure on the Axis by attacking what Winston Churchill dubbed "the soft underbelly of Europe." The Allies seized the island of Sicily, landed at Salerno and Anzio, and established a presence along the coast of southern France. With *Utmost Spirit* takes a fresh look at this crucial naval theater of the Second World War. Barbara Brooks Tomblin tells of the U.S. Navy's and the Royal Navy's struggles to wrest control of the Mediterranean Sea from Axis submarines and aircraft, to lift the siege of Malta, and to open a through convoy route to

Suez while providing ships, carrier air support, and landing craft for five successful amphibious operations. Examining official action reports, diaries, interviews, and oral histories, Tomblin describes each of these operations in terms of ship to shore movements, air and naval gunfire support, logistics, countermeasure measures, antisubmarine warfare, and the establishment of ports and training bases in the Mediterranean. Firsthand accounts from the young officers and men who manned the ships provide essential details about Mediterranean operations and draw a vivid picture of the war at sea and off the beaches.

When Machines Play Chopin-Katherine Maree Hirt 2010 When Machines Play Chopin brings together music aesthetics, performance practices, and the history of automated musical instruments in nineteenth-century German literature. Philosophers defined music as a direct expression of human emotion while soloists competed with one another to display machine-like technical perfection at their instruments. When Machines Play Chopin looks at this paradox between thinking about and practicing music to show what three literary works say about automation and the sublime in art.

Creative Spirituality-Robert Wuthnow 2001-03-13 In a provocative book that explores the fascinating link between the creative and the sacred, Robert Wuthnow claims that artists have become the spiritual vanguard of our time. Drawing on in-depth interviews with painters, sculptors, writers, singers, dancers, and actors, Wuthnow includes the spiritual insights of accomplished artists who have gained prominence as Broadway performers, gospel singers, jazz musicians, poets, Native American painters, weavers, dancers, and installation artists. He profiles such national figures as novelist Madeleine L'Engle, playwright Tony Kushner, photographer Andres Serrano, sculptor Greg Wyatt, dancer Carla DeSola, and woodcarver David Ellsworth. Situating these artists' reflections in the context of wider cultural ferment, Wuthnow argues that spirituality is coming increasingly to focus on the inherently ineffable character of the sacred—what artists refer to as divine mystery. As growing numbers of Americans doubt the adequacy of religious creeds in defining the sacred, they are turning to artists who seek a more intuitive sense of the sacred through symbols and imagery. These artists provide rich insights into the social and cultural problems of our time. Many have been shaped by the growing ethnic, racial, and religious diversity of the United States. Many are at the cutting edge of new thinking about body, mind, and spirit, and many are seeking ways to integrate their understandings of spirituality with interests in nature and preserving the environment. For readers interested in exploring contemporary spirituality or engaged in spiritual pursuits of their own, this engaging, elegantly written, and erudite book will answer many questions about the changing moral and spiritual role of creativity and the arts.

The Soul of A New Machine-Tracy Kidder 2011-08-23 Pulitzer Prize winner Tracy Kidder memorably records the drama, comedy, and excitement of one company's efforts to bring a new microcomputer to market. Computers have changed since 1981, when The Soul of a New Machine first examined the culture of the computer revolution. What has not changed is the feverish pace of the high-tech industry, the go-for-broke approach to business that has caused so many computer companies to win big (or go belly up), and the cult of pursuing mind-bending technological innovations. The Soul of a New Machine is an essential chapter in the history of the machine that revolutionized the world in the twentieth century.

The Spirit World-Clarence Larkin 1921 In this day of the revival of "Spiritism," when so many, through the loss of loved ones in the "Great World War," are longing to communicate with the dead, and are resorting to forbidden means to that end; a day in which science is trying to discover whether there is another world than this, and whether men live after death, and if so can they communicate with the living, it seems timely that a book should be written to show what the Holy Scriptures have revealed of the "World of Spirits." The Bible has much to say about the "Spirit World," and if we will carefully search its pages we shall know all there is to be known in this life of the "World to Come." For if men will not listen to Moses and the Prophets, they will not be persuaded though one rose or came back from the dead. Luke 16:31. - Foreword.
