Gerontological Nurse Certification Review-Meredith Wallace, PhD, APRN-BC 2008-07-02 The Gerontological Nurse Certification Review is an invaluable reference and certification test review guide for nurses preparing for RN Gerontological certification. Students studying gerontology, teachers preparing gerontology classes, and RNs working with older adults will also find this a practical and useful resource. The text presents information about preparing for the certification exam, a comprehensive compilation of content specific to gerontology, and a test bank of questions specifically developed for the RN. Why this is the only test review you need: Developed to address all aspects of ANCC exam Formatted for easy review and understanding of concepts Up-to-date and evidence-based 500 review questions to adequately prepare future gerontological nurses One of a kind--no other gerontological review books are currently available
Gerontological Nurse Certification Review, Second Edition-Alison E. Kris, RN, PhD 2015-05-12 "In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." --Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing This is the only certification review for the gerontology nursing specialty exam that has it all--a comprehensive review section covering key content included on the exam, well-honed test-taking strategies, and an extensive number of exam-style questions with answers and rationales. The second edition is completely updated to mirror the new format and content of the 2015 certification exam. It now features rationales for all review questions to promote

critical thinking and includes new or expanded sections on health promotion and person-centered care, state-of-the-art drug information, and instruction on leadership, management, patient education, and population health. Concise and to the point, this resource contains all of the information required for test success, including step-by-step directives on how to best prepare for the certification exam, a meticulous content review presented according to the test blueprint, and 500 questions with answers and rationales that mirror the type of questions included on the exam. The dissection and analysis of a variety of questions likely to appear reinforce crucial test-taking strategies, and clues for memorizing information and tips for prioritizing answers offer additional tactics for exam success. An unrivalled resource for test preparation, the book will also be useful for students and teachers of gerontology and practicing nurses working with older adults. Key Features: Mirrors the new 2015 certification test plan Provides expanded content on health promotion and person-centered care Offers updated information on new medications and treatments Presents new content on leadership, management, patient education, and population health New to the second edition, are rationales for all 500 questions

Adult-Gerontology Acute Care Nurse Practitioner Q&A Review-Dawn Carpenter, DNP, ACNP-BC
2018-11-28 Print version of the book includes free access to the app (web, iOS, and Android), which offers interactive Q&A review plus the entire text of the print book! Please note the app is included with print purchase only. The only book designed specifically to prepare students for the Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) exams, this unparalleled review details the step-by-step journey from classroom to patient room and beyond. This book begins with proven test-taking strategies for students and provides an overview of common pitfalls for exam takers. It features question styles and content material from both the American Association of Critical-Care Nurses (AACN®) and American Nurses Credentialing Center (ANCC) exams, providing an overview of the certification exams written specifically by the certification organizations themselves. With more than 630 unique questions, this review contains completely up-to-date and evidence-based exam preparation. Practice questions are organized into body system review, special populations, and legal/ethical issues, and culminate in a 175-question practice test that represents the length, variety, and complexity of board exam questions. All questions' answers have accompanying rationales based on clinical practice guidelines. Completely unique to this publication, the last section of Adult-Gerontology Acute Care Nurse Practitioner Q&A Review guides one through the next steps after the exam—how to progress into practice with your new certification. KEY FEATURES Over 630 practice questions with answers and rationales The only current book publication designed specifically to prepare students for the AG-ACNP exams Contains the most current information and practice using published guidelines Exam tips and perils/pitfalls to avoid in test-taking Includes free access to interactive ebook and Q&A app—track and sync your progress on up to three devices!

Adult-Gerontology Primary Care Nurse Practitioner Certification Review - E-Book-JoAnn Zerwekh
2018-01-04 Get the expert study tools you need to prepare for Adult-Gerontology Primary Care Nurse Practitioner certification! New from best-selling author JoAnn Zerwekh, Adult-Gerontology Primary Care Nurse Practitioner Certification Review has been carefully written and organized to mirror the AANP and ANCC test blueprints. The first edition of this robust study tool includes more than 1,400 multiple-choice questions that reflect the latest evidence-based clinical practice and national treatment guidelines and protocols. At the end of every chapter you'll find an Answers and Rationales section for instant remediation. Additionally, you can study anytime and anywhere with a mobile-optimized website that generates exams with questions taken from the book, plus new illustration-based and ordered-response questions. NEW! Expert exam prep matching the latest AANP and ANCC exam blueprints and item formats, including multiple-choice questions in print and ordered-response and image-based questions online. NEW! More than 1,400 practice questions with answers and detailed rationales for correct answers NEW! Questions mirroring the Primary Care AGPCNP certification exams cover the latest information on assessment, diagnosis, patient education, planning and intervention, evaluation of response to health care, health promotion strategies, scope of practice, and ethics. NEW! Up-to-date clinical content reflects the very latest evidence-based clinical practice and national treatment guidelines and protocols. NEW! Randomly generated practice exams online deliver an unlimited number of practice exams with automated grading and feedback. NEW! Chapter on Test-Taking Strategies guides you through techniques to increase clinical reasoning skills, improve testing skills, learn strategies for decreasing anxiety, and employ tips to improve study habits. NEW! QSEN-focused questions highlight the graduate-level safety competency of the Quality & Safety Education for Nurses (QSEN) initiative. NEW! Clinical chapters are divided into three areas to make it easy to locate specific information within each body system.

Gerontological Nurse Certification Review, Third Edition-Alison E. Kris, RN, PhD 2020-10-15 Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. Praise for the second edition: "In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." -Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing This unrivalled resource contains all of the information every RN needs to successfully prepare for the Gerontological Nurse Certification Exam (GNCE). Basic Geriatric Nursing - E-Book-Patricia A. Williams 2019-07-30 Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of the older adult. NEW! Nurse Alert feature emphasizes important safety and health promotion content specific to the elderly patient. NEW! Updated and expanded art program makes learning the material easier through clear and timely photographs and illustrations.

Gerontologic Nursing - E-Book-Sue E. Meiner 2014-10-17 Gerontologic Nursing, 5th Edition offers comprehensive disorder and wellness coverage to equip you with the essential information you need to provide the best nursing care to older adults. A body-system organization makes information easy to find, and includes discussions on health promotion, psychologic and sociocultural issues, and the common medical-surgical problems associated with aging adults. Written by expert educator and clinician Sue Meiner, EdD, APRN, BC, GNP, this book also emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care. Case Studies specialty boxes provide realistic situations to expand your knowledge and understanding. UNIQUE! Nursing care plans supply guidance on selecting appropriate nursing activities and interventions for specific conditions. Evidence-Based Practice specialty boxes pull the critical evidence-based information contained in the text into boxes for easy access and identification. UNIQUE! Client/Family Teaching specialty boxes emphasize key aspects of practice and teaching for self-care. UNIQUE! Home Care specialty boxes highlight tips to promote practical, effective home care for the older adult. UNIQUE! Emergency Treatment specialty boxes highlight critical treatment needed in emergency situations. UNIQUE! Nutritional Considerations specialty boxes demonstrate special nutritional needs and concerns facing the aging population. NEW! Completely revised Pharmacologic Management chapter covering substance abuse. NEW! Completely revised Cognitive and Neurologic Function chapter covering mental health. NEW! Up-to-date content equips you with the most current information as the basis of the best possible care for problems affecting the older adult population. Streamlined focus presents the essential "need to know" information for the most common conditions in older adults in a format that you can easily and quickly grasp. UNIQUE! Disorder index on the inside cover supplies a handy reference to guide students to the information they need quickly and easily. Complex aspects of aging offers detailed and comprehensive coverage of pain, infection, cancer, chronic illness, loss, death, and dying, and substance abuse. Thorough assessment coverage recaps normal, deviations from normal, and abnormal findings of vitals for the older adult for students and practitioners.

Gerontological Nursing-Charlotte Eliopoulos 2013-02-01 Eliopoulos provides students with the content they need, taking a holistic approach to gerontological nursing. Updated for currency, the text works to ensure students are prepared for their careers with new real world application and care competencies to help guide work place decisions. With DocuCare availability, this new edition also connects textbook resources with clinical and simulation setting via supplementary resources.

Gerontological Nursing Certification Review Guide for the Generalist, Clinical Specialist, Nurse Practitioner-Catharine A. Kopac 1996-01-01 A new and updated version of this best-selling resource! Jones and Bartlett Publisher's 2011 Nurse's Drug Handbook is the most up-to-date, practical, and easy-to-use nursing drug reference! It provides: Accurate, timely facts on hundreds of drugs from abacavir sulfate to Zyxos; Concise, consistently formatted drug entries organized alphabetically; No-nonsense writing style that speaks your language in terms you use everyday; Index of all generic, trade, and alternate drug names for quick reference. It has all the vital information you need at your fingertips: Chemical and therapeutic classes, FDA pregnancy risk category and controlled substance schedule; Indications and dosages, as well as route, onset, peak, and duration information; Incompatibilities, contraindications; interactions with drugs, food, and activities, and adverse reactions; Nursing considerations, including key patient-teaching points; Vital features include mechanism-of-action illustrations showing how drugs at the cellular, tissue, or organ levels and dosage adjustments help individualize care for elderly patients, patients with renal impairment, and others with special needs; Warnings and precautions that keep you informed and alert.

Gerontological Nursing: Competencies for Care-Kristen L. Mauk 2010-10-25 Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

HESI Comprehensive Review for the NCLEX-RN Examination-Hesi 2013-09-20 Second edition titled: Evolve Reach comprehensive review for the NCLEX-RN examination.

BCGP Bullets-Eric Christianson 2019-02-09 Updates for 2020! We've made edits and updates to the following sections: Asthma, Atrial Fibrillation, Beers Criteria, Chronic Kidney Disease, Crohn's, COPD, Diabetes, Migraines, Hyperlipidemia, Parkinson's, Sexual Dysfunction, Ulcerative Colitis, and Vaccines. In addition, we've created a section on the rapidly growing topic of Pharmacogenomics. If you are a pharmacist seeking to become board certified in geriatrics by passing the exam, this is a must-have study guide. We've edited our VERY popular BCPS Bullets book and created a review for the geriatric pharmacy exam based on the Board of Pharmaceutical Specialties content outline. With recent PASS rates around 40%, you have to have the right tools to pass this exam and this book will help immensely. In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff because I know it is impossible to know every minute detail. BCGP Bullets, the Condensed BCGP Study Guide will help prepare you for the exam as well as help you maximize your study time. We have covered over 100+ disease states with critical clinical pearls, like drugs of choice, drug interactions, disease state

education, and geriatric-specific nuggets for certain medications. Biostatistics basics, important geriatric terminology, social, financial, and emotional considerations are also included in this book. Items like elder abuse, advanced directives, and power of attorney show up in the content outline and we have also outlined the basics of this terminology. I can assure you that there is no doubt this book will help in your preparation for becoming a BCGP certified pharmacist! The Board Certified Geriatric Pharmacist (BCGP) is a designation from the Board of Pharmacy Specialties. The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties.

Nurse Practitioner Certification Examination and Practice Preparation-Margaret A. Fitzgerald 2010
Provides more than 1,400 practice questions and answers, case studies, discussions, references, and test-taking strategies.

Evidence-Based Geriatric Nursing Protocols for Best Practice, Fifth Edition-Marie Boltz, PhD, RN, GNP-BC, FGSA, FAAN 2016-03-28 This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Gerontological Nursing-Patricia A. Tabloski 2018-04

Adult-Gerontology Practice Guidelines, Second Edition-Jill C. Cash, MSN, APN, FNP-BC 2019-02-05 Praise for the First Edition: "Because of the way it is organized, this book meets the needs of both novice and experienced advance practice nurses. Each chapter defines the problem, how often it occurs, and what leads to the problem. To aid in assessment, the book includes the physical examination landmarks as well as diagnostic tests that might be needed. A plan of care is offered with several different alternatives for treatment and then notes what type of follow-up is needed. This would be a great resource for anyone working in the field of geriatrics...Score: 92 - 4 Stars! --Doody's Reviews The first book to encompass adult-gerontology practice guidelines for primary care, this comprehensive resource is useful as both a clinical reference and as a text for health care practitioners working with this population. Concise and up-to-date, the book is distinguished by its easy-to-read outline format that enables readers to quickly access the information they need. The second edition features 27 completely new entries associated with the aging population, an entirely new section on geriatric syndromes, and multiple updates to guideline changes for screenings. Polypharmacy issues are incorporated throughout and the BEERS list of medications is highlighted to guide prescribers in safely tapering or adding medications to a patient's drug regimen. For quick and easy access to information, practice guidelines are organized primarily by body system, disorders are listed alphabetically within each body system, and all disorders are presented in a consistent format. With an emphasis on history taking, the physical exam, and key features of the aging population, each of the more than 240 disorder guidelines include definition, incidence, pathogenesis, predisposing factors, common complaints, other signs and symptoms, subjective data, physical exam, diagnostic tests, differential diagnoses, plan of care, health promotion, follow-up guidelines, and tips for consultation/referral. Particularly helpful features include "Practice Pointers" highlighting crucial information for a disorder and bold-faced "Alerts." Key patient teaching points are

presented at the end of each guideline. Also included are 18 procedures commonly used within office or clinic settings and 140 Patient Teaching Guides that are available digitally. New to the Second Edition: 27 completely new entries New section on geriatric syndromes Polypharmacy alerts are incorporated throughout BEERS list of medications is highlighted for each disorder Updated guidelines for various screenings Medicare Coverage and Eligibility Screening U.S. Preventative Services Task Force recommendations on colonoscopy, screening mammogram guidelines, pap smears and pelvic examinations Deprescribing Algorithms ASCCP Algorithms Key Features: Focuses specifically on adult and older adult populations Presented in easy-to-read outline format for quick access to information Delivers consistent presentation of more than 240 disorders by body system Reviews 17 commonly used procedures step by step Provides "Practice Pointers" to indicate important care points Offers digital access to more than 140 extensive Patient Teaching Guides to customize and print

Aging-Harry R. Moody 2017-01-12 Presenting current research in an innovative text-reader format, *Aging: Concepts and Controversies*, Ninth Edition encourages students to become involved and take an informed stand on the major aging issues we face as a society. Not simply a summary of research literature, Harry R. Moody and Jennifer R. Sasser's text focuses on controversies and questions, rather than on assimilating facts or arriving at a single "correct" view about aging and older people. Drawing on their extensive expertise, the authors first provide an overview of aging in three domains: aging over the life course, health care, and the socioeconomic aspects of aging. Each section is followed by a series of edited readings, offering different perspectives from experts and specialists on that subject. New readings focus on whether current federal spending on the elderly is sustainable and fair to other groups, how older consumers are reshaping the business landscape, and the challenges of marketing and selling to customers 60 and over. More emphasis is placed on how social class and inequality earlier in life can shape our final years and the number of older Americans living in poverty. The section on Aging and Health Care has been thoroughly updated to reflect the latest data about chronic diseases that affect the elderly, government spending on health care, and policy changes to programs like Medicaid and Medicare. The section on the Social and Economic Outlook for an Aging Society gives the most current picture of the racial and ethnic diversity of older Americans, their participation in the labor force, and their income and wealth.

Adult-Gerontology Nurse Practitioner Certification Review Guide-Sally K. Miller 2014-10-30 Review Guides/Certification Prep/Pocket Guides

Advanced Practice Nursing of Adults in Acute Care-Janet G Foster 2012-05-31 Written by a Clinical Nurse Specialist for Clinical Nurse Specialists, this text explores the expanding roles and responsibilities of the CNS—from core competencies and theoretical foundations for practice to caring for the hospitalized adult to shaping the healthcare system through the CNS's spheres of influence.

Clinical Nurse Specialist Toolkit, Second Edition-Melanie Duffy, MSN, RN, CCRN, CCNS 2016-02-10 Praise for the First Edition: "This is a valuable resource for new clinical nurse specialists as they begin their journey. It provides excellent guidance that will help new graduates as they negotiate new positions and develop new roles in healthcare organizations." Score: 95, 4 stars --Doody's This is a one-of-a-kind, all-inclusive reference guide for new Clinical Nurse Specialists entering the field as well as seasoned practitioners looking to update their knowledge. Disseminating a wealth of current professional practice guidance and practical information on reimbursement and certification, the second edition has been fully updated to reflect changes resulting from the Affordable Care Act and the APRN Consensus Model. Four new chapters address changes and emerging trends, expanding focus on independent practice, increasing demands on health care due to the growing population of older adults, and updated reimbursement/economic issues. This authoritative toolkit is organized in an easy-to-use, bullet-point format and includes numerous clinical examples, case scenarios, and personal anecdotes culled from the contributors' own professional experiences. New to the Second Edition: Fully revised and updated Addresses CNS practice within Affordable Care Organizations Describes CNS leadership role in system-level evidence-based practice initiatives Covers documentation and communication of CNS activities aligning with strategic initiatives and CNS practice priorities Discusses facilitating transitions of care to assure safety and quality Addresses the CNS role in interprofessional education in clinical settings Key Features: Presents crucial information on negotiating and securing a job Provides advice on establishing credibility, prioritizing, and finding a mentor Contains guidelines on mentoring staff, leading groups, and precepting students Addresses documenting and measuring clinical outcomes Describes how to network with professional organizations and community agencies Offers practical guidance on applying for reimbursement and pursuing certification and licensure

Synergy for Clinical Excellence-Roberta Kaplow 2005 An essential reference for nursing students in developing and implementing the competencies necessary in caring for critically ill patients. Includes sample test questions relevant to the model that will assist nursing students in preparing for certification through AACN.

Trauma Certified Registered Nurse (TCRN) Examination Review-Kendra Menzies Kent, MS, RN-BC, CCRN, CNRN, SCRN, TCRN 2017-01-05 This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

Handbook of Assessment in Clinical Gerontology-Peter A. Lichtenberg 2010-08-20 New trends in mental healthcare practice and a rapid increase in the aged population are causing an explosion in the fields of clinical gerontology and geropsychology today. This comprehensive second edition handbook offers clinicians and graduate students clear guidelines and reliable tools for assessing general mental health, cognitive functioning, functional age, psychosocial health, comorbidity, behavior deficits, and more. Psychopathology, behavioral disorders, changes in cognition, and changes in everyday functioning are addressed in full, and a wide range of conditions and disorders common to this patient population are covered. Each chapter provides an empirical review of assessment instruments, assessment scales in their totality, a review of how these instruments are used with and adapted for different cultural groups, illustration of assessments through case studies, and information on how to utilize ongoing assessment in treatment and/or treatment planning. This combination of elements will make the volume the definitive assessment source for clinicians working with elderly patients. The most comprehensive source of up-to-date data on gerontological assessment, with review articles covering: psychopathology, behavioral disorders, changes in cognition, and changes in everyday functioning Consolidates broadly distributed literature into single source, saving researchers and clinicians time in obtaining and translating information and improving the level of further research and care they can provide Chapters directly address the range of conditions and disorders most common for this patient population - i.e. driving ability, mental competency, sleep, nutrition, sexual functioning, demntias, elder abuse, depression, anxiety disorders, etc Fully informs readers regarding conditions most commonly encountered in real world treatment of an elderly patient population Each chapter cites case studies to illustrate assessment techniques Exposes reader to real-world application of each assessment discussed
