Zest for Learning-Bill Lucas 2020-03-23 In Zest for Learning: Developing curious learners who relish real-world challenges, Bill Lucas and Ellen Spencer explore the ways in which teachers can help their pupils to find their passions, develop independence and challenge themselves to become more expansive learners. Young people need more than subject knowledge in order to thrive they need capabilities. The Pedagogy for a Changing World series details which capabilities matter and how schools can develop them. A key capability is zest: the curiosity and desire to experience new things. Zest for Learning offers a powerful new synthesis of thinking about what it takes for young people to flourish both in education and in the wider world, especially at a time when preparing them for life beyond school often calls for brave leadership. This could be encouraged through, for example, greater engagement with sports and the arts, by collaborating with external bodies such as the Scouts and Guides or the Duke of Edinburgh’s Award scheme or by working with libraries, museums, faith groups and environmental associations. In this book Bill and Ellen offer a framework for zest: a practical guide for teachers, underpinned by theory. They draw on a number of areas of knowledge and practice that each have something to contribute to the concept of zest for learning, bringing together ideas in concrete and actionable ways. Zest for Learning connects the co-curriculum with the formal curriculum, building both theoretical and practical confidence in the kinds of pedagogies which work well. Bill and Ellen have infused the book with a wide range of ideas for getting pupils to love learning so much that they will be able to learn whatever they want to throughout their lives. The authors also go further by presenting case studies that illustrate the successful integration of the co-curriculum with the formal curriculum at various educational institutions, and by providing an A to Z of practical ideas and activities for developing zest in young learners. Suitable for all teachers and leaders, in both primary and secondary settings.

Mirror Opposites-J L Daniels 2014-12-15 The stock market crash October 19,1987 becomes a pivotal life-changing event for identical twins Tom and Glenn Lonardo. The fallout from this calamitous market collapse triggers actions and events that inexorably engulf the brothers, sucking them into a vortex called disaster. It is a tale of “cool” assassins, a unique Las Vegas casino with its enforcers, Wall Street players and pundits and beautiful women. It is replete with a host of unforgettably bizarre characters including a Jewish midget who is part Eskimo and a FBI agent who yodels, and a background true to life story of brothers brought up in contrasting cultures. It is a story of larceny, love and lust; greed and deceit; a fugitive on the run and murder! While it is suspenseful and has its unspeakably tragic twists and turns, it is highly entertaining and always amusing. It will keep a reader’s eyes open! A work of FICTION, it borrowed from much that was true.
