Teaching Social Studies-S. G. Grant 2017-05-01 Teaching Social Studies: A Methods Book for Methods Teachers, features tasks designed to take preservice teachers deep into schools in general and into social studies education in particular. Organized around Joseph Schwab's commonplaces of education and recognizing the role of inquiry as a preferred pedagogy in social studies, the book offers a series of short chapters that highlight learners and learning, subject matter, teachers and teaching, and school context. The 42 chapters describe tasks that the authors assign to their methods students as either in?class or as outside?of?class assignments. The components of each chapter are: > Summary of the task > Description of the exercise (i.e., what students are to do, the necessary resources, the timeframe for completion, grading criteria) > Description of how students respond to the activity > Description of how the task fits into the overall course > List of readings and references > Appendix that supplements the task description

Teaching Social Studies that Matters-Stephen J. Thornton 2005 No plan to increase achievement and enact reform in the social studies classroom will succeed without recognizing the central importance of the teacher as the gatekeeper of instruction. In this book, Thornton details why teachers must develop strong skills in curriculum planning and teaching methods in order for effective instruction to occur. Thornton helps teachers to develop a vision of their practice that will build strong social studies programs and inspire students to learn. This book features replicable examples of the kinds of reflective practice that will enable teachers to animate classroom instruction and create a dynamic social studies curriculum and an analysis of how teachers adapt and shape state and district level curricula and classroom materials to fit the specific needs of their students, and a model of how to develop an instructional program with suggestions for lesson planning.

Teaching of social studies-S. K. Kochhar 2000

The Essence of Teaching Social Studies-James A. Duplass 2020-10-01 Designed for use in elementary and secondary social studies education courses, this book supports the teaching of social studies methods in a range of educational settings. By highlighting long-standing content and principles of social studies education in a concise and direct way, this volume offers the building blocks of a comprehensive course, for use as springboards to the effective presentation of professors' desired course emphases. With sections on foundations, subject areas, and best practices, this text explains the intersection between the "modelling" role of social studies teachers as democratic citizens, social studies fields of study, and strategies implemented in the classroom to encourage students' critical thinking and values formation.

Preparing to Teach Social Studies for Social Justice-Ruchi Agarwal-Rangnath 2016 This practical book shows how veteran, justice-oriented social studies teachers are responding to the Common Core State Standards, focusing on how they build curriculum, support students' literacy skills, and prepare students to think and act critically within and beyond the classroom. In order to provide direct classroom-to-classroom insights, the authors draw on letters written by veteran teachers addressed to new teachers entering the field. The first section of the book introduces the three approaches teachers can take for teaching for social justice within the constraints of the Common Core State Standards (embracing, reframing, or resisting the standards). The second section analyzes specific approaches to teaching the Common Core, using teacher narratives to illustrate key processes. The final section demonstrates how teachers develop, support, and sustain their identities as justice-oriented educators in standards-driven classrooms. Each chapter includes exemplary lesson plans drawn from diverse grades and classrooms, and offers concrete recommendations to guide practice. This book: offers advice from experienced educators who have learned to successfully navigate the constraints of high-stakes testing and standards-based mandates; shares and analyzes curricular and pedagogical approaches to teaching the Common Core; and examines a range of philosophical and political stances that teachers might take as they navigate the unique demands of teaching for social justice in their own context.

Teaching Social Studies in Middle and Secondary Schools-Candy Beal 2009 In the tradition of social studies innovator Peter Martorella, this readable, accessible text offers prospective teachers a comprehensive introduction to teaching social studies to middle and secondary school students. With the purpose of social studies being the development of reflective, competent, concerned citizens, the text first examines the origins and evolution of social studies and citizenship education across the United States. Following this, targeted chapters address the art, science, and craft of social studies teaching as a means for engaging learners in knowledge construction. In the final section, the authors look at ways to improve social studies instruction through the incorporation of emerging technologies, and explore the implications of the rich cultural diversity within our nation.

Social Studies for Secondary Schools-Alan J. Singer 2014-10-08 Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, nd Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

Teaching Social Studies to English Language Learners-Barbara C. Cruz 2013 Teaching Social Studies to English Language Learners provides readers with a comprehensive understanding of both the challenges that face English language learners (ELLs) and ways in which educators might address them in the social studies classroom. The authors offer context-specific strategies for the full range of the social studies curriculum, including geography, U.S. history, world history, economics, and government. These practical instructional strategies will effectively engage learners and can be incorporated as a regular part of instruction in any classroom. An annotated list of web and print resources completes the volume, making this a valuable reference to help social studies teachers meet the challenges of including all learners in effective instruction. Features and updates to this new edition include: • An updated and streamlined Part 1 provides an essential overview of ELL theory in a social studies specific-context. • "Teaching Tips" offer helpful suggestions and ideas for creating and modifying lesson plans to be inclusive of ELLs. • Additional practical examples and new pedagogical elements in Part 3 include more visuals, suggestions for harnessing new technologies, discussion questions, and reflection points. • New material that takes into account the demands of the Common Core State Standards, as well as updates to the web and print resources in Part 4.

Social Studies for Social Justice-Rahima C. Wade 2007-04-13 Explores the value and impact of implementing social action and social justice activities in the elementary classroom. Teaching Social Studies-Virginia S. Wilson 1993 This valuable reference overviews the past, present, and future of social studies in elementary and secondary schools. The work begins with informative introductory chapters that overview trends and themes common to all disciplines of history and the social sciences. The chapters that follow summarize and assess the development of teaching and research in particular social science disciplines. Each chapter begins with a section of reflections on the history of a discipline, followed by a section on current issues and trends, followed by a final section of projections for the future of the discipline. A final set of chapters discusses broad topics common to all social studies disciplines, such as the place of religion in the social studies curriculum, the role of writing in the social studies classroom, and the professional training of social studies teachers.

Social Studies Teacher Education-Christopher C. Martell 2017-10-01 Over the past decade, the world has experienced a major economic collapse, the increasing racial inequity and highprofile police killings of unarmed Black and Brown people, the persistence of global terrorism, a largescale refugee crisis, and the negative impacts of global warming. In reaction to social instability, there are growing populist movements in the United States and across the world, which present major challenges for democracy. Concurrently, there has been a rise of grassroots political movements focused on increasing equity in relation to race, gender, class, sexual orientation, and religion. The role of social studies teachers in preparing the next generation of democratic citizens has never been more important, and the call for more social studies teacher educators to help teachers address these critical issues only gets louder. This volume examines how teacher educators are (or are not) supporting beginning and experienced social studies teachers in such turbulent times, and it offers suggestions for moving the field forward by better educating teachers to address growing local, national, and global concerns. In their chapters, authors in social studies education present research with implications for practice related to the following topics: race, gender, sexual orientation, immigration, religion, disciplinary literacy, global civics, and social justice. This book is guided by the following overarching questions: What can the research tell us about preparing and developing social studies teachers for an increasingly complex, interconnected, and rapidly changing world? How can we educate social studies teachers to "teach against the grain" (CochranSmith, 1991, 2001b), centering their work on social justice, social change, and social responsibility?

Teaching Social Studies-Emily Schell 2007 Teaching Social Studies: A Literacy-Based Approach offers innovative ideas and new directions for teaching social studies. By integrating powerful literacy strategies into instruction, social studies teachers can motivate students to deepen their understanding of social studies concepts and ultimately strengthen their overall comprehension. This book addresses how to teach social studies for understanding and how literature can enhance this process. Chapters feature big ideas to guide planning and instruction, book links to encourage the integration of children's literature and informational sources, and lesson planning tools to help readers design responsive instruction. Margin notes provide readers with additional information such as history connections, useful websites, and fresh teaching ideas.

The Status of Social Studies-Jeff Passe 2013-10-01 A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States. With over 12,000 responses, it is the largest survey of social studies teachers in over three decades. We asked teachers about their curricular goals, their methods of instruction, their use of technology, and the way they address the needs of English language learners and students with disabilities. We gathered demographic data too, along with inquiries about the teachers' training, their professional development experiences, and even whether they serve as coaches. The enormous data set from this project was analyzed by multiple research teams, each with its own chapter. This volume would be a valuable resource for any professor, doctoral student, or Master's student examining the field of social studies education. It is hard to imagine a research study, topical article, or professional development session concerning social studies that would not quote findings from this book about the current status of social studies. With chapters on such key issues as the teaching of history, how teachers address religion, social studies teachers' use of technology, and how teachers adapt their instruction for students with disabilities or for English language learners, the book's content will immediately be relevant and useful.

Social Studies for the Twenty-First Century-Jack Zevin 2015-01-09 Now in its 4th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite

perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. New in the Fourth Edition: Clear links to the The National Council for the Social Studies College, Career and Civic Life C3 Framework for Social Studies State Standards Attention to impact of high-stakes testing, Common Core State Standards, and related ongoing developments Expanded and critical review of the use of internet, web, and PowerPoint technologies Coverage of how to incorporate the many social science, humanities, and STEM fields to enrich the social studies Updates and revisions throughout, including new research reports reflecting current findings, new examples, more media and materials resources, particularly digital resources, new and updated pedagogical features Companion Website - new for this edition

TEACHING OF SOCIAL STUDIES-S. K. MANGAL 2008-08-25 Written in an easy-to-understand style, this text provides a thorough coverage of the essential topics related to the teaching of social studies in secondary and elementary schools. Reflecting on the theoretical knowledge and practical skills required to teach social studies in an effective manner, the text first introduces its readers to the various components, study material, scope and importance of social studies. It then teaches the formulation of instructional objectives in social studies, and brings out the principles of social studies curriculum as well as its relationship with other subjects of the school curriculum. The book focuses mainly on improving the methodological concepts of the social studies teacher, and in doing so, discusses various methods of teaching; evaluation and planning of lessons, units and courses; organization of social studies room and the equipment to be kept in it; utilization of community resources; and implementation of various co-curricular activities. It also examines certain innovative methods of teaching such as team-teaching, micro-teaching and individualized instruction. KEY FEATURES □ Incorporates chapter outline at the beginning and chapter summary at the end of each chapter to help readers review the important topics. □ Provides chapter-end questions for students to drill the topics discussed. □ Discusses various topics with the help of a number of figures and tables that facilitates easy-understanding of the concepts. This book is suitable for a course on Teaching of Social Studies for the students of B.Ed. and M.A. (Education). It can also be used for the in-service teacher education programmes organized by the Central and State education boards.

Teaching Elementary Social Studies-James J. Zarrillo 2011-03 Learn how to meet the needs of the diverse students in your first classroom through this unique elementary social studies methods textbook. With a unifying theme of diversity, it emphasizes differentiated instruction and meeting the needs of all students, including special attention to English learners, children with mild learning disabilities, and gifted students. Chapters on differentiated instruction (Chapter 4) and culturally-responsive teaching (Chapter 5) provide a strong foundation and context for the strategies and teaching tips that follow in later chapters. Reflecting the national trends toward standards-based instruction and greater utilization of technology, this book is a great resource for your first classroom and beyond. Read and reference this text for comprehensive coverage including new chapters on teaching geography and the literacy and social studies connection, as well as existing chapters on the history and current status of social studies; lesson and unit planning; cooperative learning; critical thinking; technology; assessment; integrating the language arts, the visual arts, and the performing arts; citizenship education; history and geography; and the other social sciences. Finally, instructors and students have praised earlier editions of this book because of its pragmatic and accessible style. The Social Studies Curriculum-E. Wayne Ross 2012-02-01 This updated third edition contains new chapters on important issues—including race, gender, sexuality, and multiculturalism—affecting social studies education.

Modern Methods of Teaching Social Studies-Tara Chand Sharma 2002

Teaching Social Studies in an Era of Divisiveness-Wayne Journell 2016-09-01 Teaching controversial social issues can be a daunting, and oftentimes terrifying, prospect for social studies teachers. In many ways, this fear is warranted given the politically polarized nature of American society in the 21st century. However, effective social studies instruction requires that students begin to grapple with difficult issues in tolerant ways. The chapters in this book, many of which are written by leading scholars within the field of social studies education, cover a range of 21st century social issues, including politically volatile issues such as gun control, marriage equality, the Black Lives Matter movement, and immigration. This book offers both a theoretical justification for engaging students with controversial social issues and practical suggestions for how to successfully implement discussions of these types of issues in K-12 classroom settings.

Building Literacy in Social Studies-Donna Ogle 2007 Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators—and social studies teachers in particular—do to help students develop the knowledge, skills, and motivation to become engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers, critical thinkers, and active citizens. The authors provide targeted strategies—including teaching models, graphic organizers, and step-by-step instructions—for activities such as * Building vocabulary, * Developing textbook literacy skills, * Interpreting primary and secondary sources, * Applying critical thinking skills to newspapers and magazines, and * Evaluating Internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.
