Textbook on International Law-Martin Dixon 2005 Textbook on International Lawprovides a concise and accessible exposition of the key areas of international law for the student. All the components of a course are considered and analyzed, with particular emphasis placed on the practice of states. Additionally, the book provides a thorough grasp of both the theory and practice of international law. This fifth edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism. As well as being an invaluable aid for law students, this book will also help students of international politics and diplomacy in understanding how the international community actually works.

Textbook on International Law-Martin Dixon 2007-07-19 The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism.

Textbook on International Law-Martin J. Dixon 2013 The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court and terrorism.

Cases and Materials on International Law-Martin Dixon 2016-09-22 Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas, including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17.

Cases and Materials on International Law-Martin Dixon 2000 Each day the media reports the rapid changes occurring around the world which have a significance for international law. The struggle for self-determination in the USSR and elsewhere, the attempts to control terrorism, the role of the United Nations, the cries for human rights, and the urgent need to protect the environment are all matters addressed by international law. However, too often the treaties, the resolutions, the statements, the cases and the other materials concerning these matters are not readily available to students of international law. Many are in United Nations documents, in national journals or in foreign government publications. As there is an increasing interdependence of the international community, it is important for this material to be easily accessible. This book is a complete collection of cases and materials and contains the material students generally need, covering both the well-established and the developing international law.

Third-Party Countermeasures in International Law-Martin Dawidowicz 2017-04-24 This book examines an important unresolved question of current international law: the legal position of third-party countermeasures.

International Law-Malcolm N. Shaw 2017-09-14 The definitive and authoritative international law text, updated to reflect key case law, international practice and treaty developments.

The Concept of Unity in Public International Law-Mario Prost 2012-03-15 'Fragmentation' has become a defining, albeit controversial, metaphor of international law scholarship in the era of globalisation. Some scholars see it as a new development, others as history repeating itself; some approach it as a technical issue and some as the reflection of deeper political struggles. But there is near-consensus about the fact that the established vision of international law as a unitary whole is under threat. At the core of the fragmentation debate lies the concept of unity, but this is hardly ever rationalised and is more assumed than explained. Its meaning remains vague and intuitive. 'The Concept of Unity in Public International Law' attempts to dispel that vagueness by exploring the various possible meanings of the concept of unity in international law. However, eschewing one grand theory of unity, it identifies and compares five candidates. Intentionally pluralistic in its outlook, the book does not engage in normative arguments about whether international law is or should be unitary but seeks to show instead that the concept of unity is contested and that discourses on fragmentation are necessarily contingent. The thesis on which the book is based won the 2009 Prize for best doctoral thesis from the Association des professeurs de droit du Québec.

Peacemaking, Power-sharing and International Law-Martin Wählisch 2019-09-05 This monograph provides a contemporary analysis of the frictions between peacemaking and international human rights law based on the cases of postconflict power-sharing in Lebanon and Bosnia-Herzegovina. In this context it evaluates the long-standing debate in the United Nations and human rights bodies about the 'imperfect peace'. Written from a practitioner-scholarly viewpoint and drawing from new authentic sources, the book describes the mechanisms used in peace agreements and post-conflict constitutions for managing ethnic or religious diversity, explains their legal limits under international human rights law, and provides a conceptual framework for analysing the nexus between law and peacemaking. The book argues that the relationship between the content of peace agreements and post-conflict constitutions, their negotiation process and the element of time, needs to be untangled to better understand the legal limits of statebuilding in the aftermath of armed conflict. It is a key resource for scholars in human rights law and peace and conflict studies, advisers in peace processes, constitution-makers, and peace mediators.

Modern Land Law-Martin Dixon 2013-05-02 Modern Land Law offers a lively and thought-provoking account of a subject that remains at the heart of our legal system. Dispelling any apprehension about the subject's formidability from the outset, this compact textbook provides an absorbing and exact analysis of all the key legal principles relating to land.

International Law-Phillip R. Trimble 2002 The focus of this law school casebook is on constitutional law as it relates to the conduct of foreign relations, primarily with that subfield dealing with the "separation of powers." Foreign relations law refers to the rules, principles, practices and procedures which structure the formation and execution of U.S. foreign policy, including it's participation in international law and institutions.

International Law 2nd Edition-Jan Klabbers 2017-04-13 Written by one of the world's leading international lawyers, this is the new and updated edition of Jan Klabber's landmark textbook. International law can be defined as 'the rules governing the legal relationship between nations and states', but in reality it is much more complex, with political, diplomatic and socio-economic factors shaping the law and its application. This refreshingly clear, concise textbook encourages students to view international law as a dynamic system of organizing the world. Bringing international law back to its first principles, the book is organised around four questions: where does it come from? To whom does it apply? How does it resolve conflict? And what does it say? Building on these questions with both academic rigour and clarity of expression, Professor Klabbers breathes life and energy into the subject. Footnotes point students to the wider academic debate while chapter introductions and final remarks reinforce learning. The second edition has been updated throughout, with particular attention to recent judicial decisions, and features new sections on sovereign debt relief, the prompt release of vessels, and the Antarctic.

International Law Stories-John E. Noyes 2007 This title sets the most significant international law cases in their social, political, and historical context. It showcases 13 essays by leading international law experts. The essays are organized in three groupings: stories about the development of international human rights law, stories about the use of international law in the U.S. legal system, and stories about international law's impact on interstate politics and the global economy. Experienced international law scholars, teachers, and practitioners will discover valuable new insights, and readers new to international law will find that the book quickly immerses them in the most significant developments in the field.

Akehurst's Modern Introduction to International Law-Peter Malanczuk 2002-04-12 First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

International Law-Professor Rebecca Wallace 2016-07-22

International Law-Mark Gibney 2019-12-19 International Law: Our Common Future offers a dynamic approach to the study of international law that actively engages students in ways that more traditional textbooks do not. One way this is achieved is by focusing on recent events, including international terrorism, extraordinary rendition, the legality of drone strikes, environmental devastation, and human rights. Another is by having students wrestle with actual court rulings rather than being given short summaries of these decisions. These cases, which are from a wide array of international, regional, and domestic tribunals, are followed by a series of provocative and challenging questions and prompts that will naturally lead to classroom discussion and debate. The book recognizes the importance of visual media in terms of student learning. In addition to photographs of individuals and events that feature prominently in the development of international law, each chapter has sections entitled "International Law at the Movies" which highlight feature films and documentaries that explore the topic at hand. What students will quickly come to realize is that international law is not a distant and abstract entity, but rather, is intimately connected to various aspects of their daily lives. The book shows some of the remarkable changes in international law, most notably the declining importance of the role of the state. As a final point, the book is written in an engaging, almost conversational, style that is accessible to students in a wide array of academic disciplines. FEATURES OF THIS INNOVATIVE TEXT This book is specifically designed to appeal to student interest, to promote active learning, and to integrate carefully edited court cases with explanatory text. Here are just a few of the features devoted to achieving these goals: Boxed text highlighting current events "International Law at the Movies" boxes Photos illustrating key moments and figures in international law Cases carefully edited and set off from the main text Notes and Comments following court case excerpts References for each chapter divided into key types of sources including Books and Articles, Reports, Agreements, and Cases (international, regional, and domestic tribunals) Glossary of key terms putting terms in context with events Filmography Table of Cases with links to original sources A NOTE ABOUT THE COVER Art Title: "Maria, inside since April 14, 2014" Artist: Ben Betsalel The cover image is from a prison project in Colombia, "Human Beings Inside and Outside," done in collaboration with the International Committee of the Red Cross (ICRC).

Law Among Nations-Gerhard von Glahn 2015-07-14 Offering a more accessible alternative to casebooks and historical commentaries, Law Among Nations explains issues of international law by tracing the field's development and stressing key principles and processes. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. Renowned for its rigorous approach and clear explanations, Law Among Nations remains the gold standard for undergraduate introductions to international law. Learning Goals Trace the development of International Law through key principles and processes. Illustrate important issues and theories using excerpts from landmark cases.

International Law, International Relations and Global Governance-Charlotte Ku 2013-03-01 International Relations and International Law have developed in parallel but distinctly throughout the 20th Century. However in recent years there has been recognition that their shared concerns in areas as diverse as the environment, transnational crime and terrorism, human rights and conflict resolution outweigh their disciplinary and methodological divergences. This concise and accessible volume focuses on collaborative work within the disciplines of international law and international relations, and highlights the need to develop this collaboration further, describing the value for individuals, states, IGOs, and other non-state actors in being able to draw on the cross-pollination of international relations and international legal scholarship. This book examines how different elements of governance are interacting and shifting from one actor to another analyses the cumulative effect of these shifts, and evaluates how they both enhance and challenge the worlds governing capacity considers how the characteristics of an architecture for a globalized governance are emerging. Helping readers to examine and understand how accumulated actions over time have given rise to system-wide changes, this work is essential reading for all students of international law, international relations and global governance.

Cases and Materials on the Law of International Organizations-William Thomas Worster 2020-07-14 In less than 100 years, international organizations have evolved from curiosities into keystones of international law. What began long ago as an unremarkable effort to coordinate a limited number of technical issues has grown into a global, multilevel, blended governing project with diverse competences in most fields of human endeavor and interests. Law graduates who enter the field of international law, as well as political science, international relations, and diplomacy, are increasingly expected to have a strong knowledge of the law of international organizations. Beyond knowledge, graduates are also expected to be able to solve new emerging legal problems confronting organizations. This book introduces students to the law of international organizations through the careful study of the most recent cases and other materials from the International Court of Justice, United Nations Security Council and General Assembly, World Trade Organization, international criminal tribunals, European Union, European Court of Human Rights, International Labour Organization, various domestic courts and arbitral panels, and other bodies. In doing so, it undertakes a critical examination of legal rights and duties, exposing the fundamental questions that arise when addressing a range of issues within an organization. In order to provide the best foundation, the textbook focuses on several key topics: the law of treaties, creation of organizations, membership, powers of organizations, legal effects of their acts, organs, immunities, and responsibility. This book is best suited for students who are studying international organizations and who have already had one or more courses on international and/or European law.

International Law-Professor Rebecca Wallace 2012-09-01 'International Law' is an introductory text on contemporary public international law. The author surveys the concepts of this law and describes the substantive procedural principles necessary for a proper understanding of the international legal process.

Marine Pollution, Shipping Waste and International Law-Gabriela Argüello 2019-07-22 Waste management poses increasing challenges to both the protection of the environment and to human health. To face these challenges, this book claims that environmental law needs to shift attention from media-specific pollution regimes to integrative life-cycle approaches of waste management i.e., from the prevention of waste generation to the actual handling of wastes. Furthermore, the cooperation of States and the establishment of coordinated activities is essential because states can no longer have separate standards for wastes posing transboundary risks and for 'purely domestic' wastes. Drawing upon both International and EU law, the book provides a detailed analysis of the regimes set up to deal with the transboundary movement of wastes and ship-source pollution, so as to elucidate the obligations and legal principles governing such regimes. It concludes that treaty obligations concerning transboundary movements of wastes are inapplicable to ship wastes while on board ships and on land. However, despite the limitations of the transboundary movement of wastes regime, the principle of Environmentally Sound Management (ESM) embodied in this regime has gradually transformed into a legal principle. ESM works to address the legal gaps in the regulation of wastes, and consequently, it provides the desired coherence to the legal system since it acts as a bridge between several regulatory and sectoral levels. Furthermore, ESM offers a new light with which to understand and interpret existing obligations, and it provides a renewed impetus to regimes that directly and indirectly govern wastes. This impetus translates into greater coordination and the establishment of cross-sectional policies. By offering alternative ways to solve problems linked to the management of ship wastes in the sea-land interface, this book will appeal to anyone with an interest in International Environmental Law.

An Introduction to International Relations-Richard Devetak 2011-10-17 Invaluable to students and those approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

International Law Documents-Jan Klabbers 2016-10-06 Montevideo Convention on Rights and Duties of States – Charter of the United Nations – Statute of the International Court of Justice -- Vienna Convention on the Law of Treaties -- Articles on the Responsibility of States for Internationally Wrongful Acts -- Vienna Convention on Diplomatic Relations – United Nations Convention on Jurisdictional Immunities of States and their Property -- Articles on Diplomatic Protection – G20 Brisbane 2014 Communique -- Convention on the Prevention and Punishment of the Crime of Genocide -- Convention Relating to the Status of Refugees -- Protocol Relating to the Status of Refugees -- Convention for the Protection of Human Rights and Fundamental Freedoms -- ECHR, first protocol -- ECHR, fourth protocol -- ECHR, sixth protocol -- ECHR, seventh protocol -- ECHR, twelfth protocol -- ECHR, thirteenth protocol -- ECHR, fifteenth protocol -- International Covenant on Civil and Political Rights -- International Covenant on Economic, Social and Cultural Rights -- American Convention on Human Rights -- African Charter of Human and Peoples' Rights -- Protocol on the Rights of Women in Africa -- Protocol on the Establishment of an African Court on Human and Peoples' Rights -- ASEAN Human Rights Declaration -- ILO Declaration on Fundamental Principles and Rights at Work -- Accord on Fire and Building Safety in Bangladesh -- Agreement between New Zealand and Turkey Relating to Air Services -- Extradition Treaty Kenya and Rwanda -- Armenia-India Agreement for the Promotion and Protection of Investments -- US Recognition of South Sudan -- United Kingdom Optional Clause Declaration -- US Ratification of International Covenant on Civil and Political Rights -- Denmark's Objection to the US Tesevation to ICCPR -- Convention on the Privileges and Immunities of the United Nations -- Agreement Regarding the Headquarters of the United Nations -- Basel Committee on Banking Supervision Charter - -- Constitutive Act of the African Union -- Resolution 1267 -- Resolution 1373 -- Resolution 1540 -- Resolution 2140 -- Resolution 217 A(III) Universal Declaration of Human Rights -- Resolution 337A (V) Uniting for Peace -- Resolution 1514 (XV) Declaration on the Granting of Independence to Colonial Countries and Peoples -- Resolution 1803 (XVII) Permanent Sovereignty over Natural Resources -- Resolution 2625 (XXV) Declaration on Principles of International Law Concerning Friendly Relations and Co-operation among States in Accordance with the Charter of the United Nations -- Resolution 41/128 Declaration on the Right to Development -- Treaty on the Non-proliferation of Nuclear Weapons -- Geneva Conventions (first three common articles) -- Rome Statute of the International Criminal Court -- United Nations Convention on the Law of the Sea (excerpt) -- Antarctic Treaty -- Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and other Celestial Bodies -- Rio Declaration on Environment and Development -- Kyoto Protocol to the United Nations Framework Convention on Climate Change -- Marrakesh Agreement Establishing the World Trade Organization -- General Agreement on Tariffs and Trade (1947, excerpts) -- Understanding on Rules and Procedures Governing the Settlement of Disputes (WTO)

International Human Rights Law-Olivier De Schutter 2014-08-07 Fully updated edition offers coverage of new topics and a more student-friendly design, while retaining the original style and features.

Texts and Materials on International Human Rights-Rhona K.M. Smith 2009-10-16 This book offers a carefully tailored overview of the subject, divided into four sections that cover sources and theories, institutions and structures, major themes and a new concluding section on the challenges for law in this area. The third edition is fully updated to include all key developments, in particular issues around torture, terrorism and international criminal law. Designed to guide students through the fundamental texts, author commentary contextualises each extract, while highlighted further reading thought links the materials to academic commentary to provide next steps for student research. Offering a clear text design that distinguishes between materials and author commentary, and including reflective questions throughout to aid understanding, this book is ideal for students seeking to engage with the key issues in the study of International Human Rights.

Between Peril and Promise-J. Martin Rochester 2011-11-08 In this concise introduction to international law, students gain a clear appreciation for how politics shapes the development of international law, and how international law shapes political relations between states. Throughout the book, Rochester takes this complex subject and makes it accessible with his vibrant, easy-to-read prose.

Oxford Textbook of Global Public Health-Roger Detels 2017-09-28 Sixth edition of the hugely successful, internationally recognised textbook on global public health and epidemiology, with 3 volumes comprehensively covering the scope, methods, and practice of the discipline.

International Aviation Law-Ron Bartsch 2016-05-23 International Aviation Law: A Practical Guide explains the international context and application of the law as it applies to commercial and recreational aviation, and to the broader aviation environment. It provides a comprehensive introduction to all aspects of aviation law from criminal law to contract law to the legal duties and responsibilities of aircrew and other aviation personnel including airport operators, air traffic controllers and aircraft engineers. Each area of the law is clearly explained in accessible language and supported with practical case studies to illustrate the application of the law within an operational aviation context. It also provides advice on how to avoid or minimize legal liability for aviation practitioners and enthusiasts.

International Law and the International System-William Elliott Butler 1987-01-01

International Trade Law-Indira Carr 2013-11-26 "International Trade Law offers comprehensive analysis of international sale transactions through case law, policy documents, legislation, international conventions and rules adopted by international organisations such as the ICC."

International Investment Law and Arbitration-Chin Leng Lim 2018-04-26 What was once a contested body of principles applied peripherally to the international settlement of expropriation disputes has been transformed and in its place now stands an important area of international disputes practice. International Investment Law and Arbitration offers a comprehensive introduction to the subject. Presenting the facts of daily legal practice and the largely unaltered aims of the subject alongside a broad selection of key awards and original materials, historical developments are discussed in the context of the changing directions in the arbitral jurisprudence and current treaty and arbitration reform debate. Key features: accessible and engaging commentary integrated throughout, end of chapter questions test reader understanding, further reading lists support and encourage exploration of the subject. Suitable for postgraduate law students studying modules on international investment arbitration, International Investment Law and Arbitration offers an indispensable introduction to the subject.

The Oxford Handbook of Public Policy-Michael Moran 2008-06-12 This is part of a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science. This work explores the business end of politics, where theory meets practice in the pursuit of public good.

International Human Rights Law-Javid Rehman 2015-03-13 International human rights law is among the broadest, most-dynamic and controversial topics in legal study. In this book, Javid Rehman offers a comprehensive and practical examination of the workings of human rights protection and presents a considered legal analysis of such sensitive issues as non-discrimination, rights of minorities, indigenous peoples, and the rights of women and children. He also explores areas such as enforced disappearances; torture; and terrorism - all highly topical and contentious issues which continue to dominate much of today's social, political and legal debate.

Marine Policy-Mark Zacharias 2014-03-14 This textbook provides the reader with a foundation in policy development and analysis and describes how policy, including legal mechanisms, is applied to marine environments around the world. It offers a systematic treatment of all aspects of marine policy, including environmental protection, fisheries, transportation, energy, mining and climate change. It starts with a biophysical overview of the structure and function of the marine environment with a particular emphasis on the challenges and opportunities of managing the marine environment. An overview of the creation and function of international law is then provided with a focus on international marine law. It explores the geographic and jurisdictional dimensions of marine policy, as well the current and anticipated challenges facing marine systems, including climate change-related impacts and resource over-exploitation. The book should appeal to senior undergraduate and graduate students and form a core part of the curriculum for marine affairs, science and policy courses. It will also provide supplementary reading for students taking a course in the law of the oceans, but is not aimed at legal specialists.

International Law in a Nutshell-Rebecca M. M. Wallace 2006 This book presents the essentials of International law in clear and straightforward language, explaining the basic principles. It includes diagrams and flowcharts to illustrate difficult concepts. It contains an examination checklist to ensure key points have been learnt. It provides sample questions with model answers to ensure students are fully prepared for how questions are likely to be posed and how best to respond for maximum marks.

ResponsAbility-Betsan Martin 2018-07-11 ResponsAbility challenges conventional thinking about our governance and legal frameworks. The cross-currents of persisting, established worldviews, knowledge systems, institutions, law and forms of governance are now at odds with future-facing innovations designed to help societies transition to both low-carbon economies and social equity. This book explores the ways in which we can move to new governance and legal structures that more effectively reflect our changed relationship with the Earth in the Anthropocene. The book is written by a group of eminent scholars and leading experts from a diverse range of backgrounds, all of whom bring new knowledge and analysis from across oceanic and continental regions. Many are from the discipline of law, whilst others bring expertise on indigenous knowledge, climate, water, governance and philosophy to engage with law. Contributors include His Highness Tui Atua Tupua Tamasese Ta'isi Efi, Head of State of Samoa, Sir Eddie Durie, Dame Anne Salmond, Pierre Calame and Adrian Macy. A number of scenarios are presented throughout the book for the realignment of global and local law to institutionalise responsibility for social, environmental and earth-centered equity.

The Oxford Handbook of Modern Diplomacy-Andrew F. Cooper 2013-03-28 Including chapters from some of the leading experts in the field this Handbook provides a full overview of the nature and challenges of modern diplomacy and includes a tour d'horizon of the key ways in which the theory and practice of modern diplomacy are evolving in the 21st Century.

Introducing International Relations-Paul Sharp 2018-03-26 This exciting new textbook provides an accessible and lively introduction to international relations for students encountering the subject for the first time. Presenting complex ideas, concepts and arguments in a straightforward and conversational way, the textbook explains international relations from a diplomatic perspective, emphasizing co-existence in the absence of agreement, and developing students' ability to make sense of the current conditions of international uncertainty. Introducing students to the major theories and issues in international relations, each chapter: is written to a common structure, dividing each topic into sections with learning objectives within each section to provide points of focus for students and instructors includes extensive text box examples and short case studies for reflection and discussion provides key terms, key takeaways and simple exercises which require short responses offers a suggested list of further readings for those who wish to explore a topic further. The first introductory textbook to take a diplomatic approach, this text is essential reading for all those looking to take their first steps into the study of international relations in an era of uncertainty.

A Companion to European Union Law and International Law-Anna Södersten 2016-03-16 Featuring contributions from renowned scholars, A Companion to European Union Law and International Law presents a comprehensive and authoritative collection of essays that addresses all of the most important topics on European Union and international law. Integrates the fields of European Union law and international law, revealing both the similarities and differences Features contributions from renowned scholars in the fields of EU law and international law Covers a broad range of topical issues, including trade, institutional decision-making, the European Court of Justice, democracy, human rights, criminal law, the EMU, and many others

War, Conflict and Human Rights-Chandra Lekha Sriram 2017-08-02 War, Conflict and Human Rights is an innovative inter-disciplinary textbook, combining aspects of law, politics and conflict analysis to examine the relationship between human rights and armed conflict. This third edition has been fully revised and updated, and contains a completely new chapter on business, conflict and human rights. Making use of both theoretical and practical approaches, the authors: examine the tensions and complementarities between protection of human rights and resolution of conflict - the competing political demands and the challenges posed by internal armed conflict and the increasing role of nonstate actors, including corporations, in armed conflicts; explore the scope and effects of human rights violations in contemporary armed conflicts, such as in Sierra Leone, Sudan, South Sudan, the Democratic Republic of Congo and the former Yugoslavia; assess the legal and institutional accountability mechanisms developed in the wake of armed conflict to punish violations of human rights law and international humanitarian law such as the ad hoc tribunals for the former Yugoslavia and Rwanda, hybrid or internationalized tribunals and the International Criminal Court; discuss continuing and emergent global trends and challenges in the fields of human rights and conflict analysis. This volume will be essential reading for students of war and conflict studies, human rights and international humanitarian law, and highly recommended for students of conflict resolution, peacebuilding, international security, transitional justice and international relations generally.
