Doing Psychology Critically-Isaac Prilleltensky 2002-08-28 How can psychologists incorporate recent insights about power, values and inequality in their work? What is the role of social justice in the practice of psychology? In this highly readable book Prilleltensky and Nelson tackle these questions and propose workable solutions. This is the first book to translate into action the principles of critical psychology. Using a value-based framework the authors propose guidelines for training and critical practice in clinical, counselling, educational, health, community, and work settings. The authors base their approach on a combination of values for the promotion of personal, interpersonal, and collective well-being. They propose a set of values consisting of self determination, caring and compassion, health, respect for diversity, participation, community support and social justice. Because of its wide coverage, the book should be of interest to students and practitioners in psychology, mental health, and to users of psychological services in most fields of practice. The Judicial Process-Henry Julian Abraham 1986 Written by one of the nation's most astute observers of the court, this classic text examines the theory, practice, and people behind the judicial process. The new seventh edition brings the work completely up to date by examining important developments and structural changes in these three judicial systems, up through the end of 1997, including judicial appointments during the Bush and Clinton administrations; significant alterations in the structure and organization of the United States, British, French, and other European courts, with an emphasis on the ongoing changes in the judiciary of the United Kingdom; and the collateral developments on the frontiers of judicial review procedures as well as the judicial role. At once comparative, expository, analytical, and evaluative, this new edition of The Judicial Process illuminates even more vividly the judiciary's political, legal, and governmental roles, examining closely that much debated but little understood line between "judicial activism" and "judicial restraint."
