When the Last Leaf Falls-Bill Myers 2001 In a new telling of the classic O'Henry story, "The Last Leaf," a gravely ill adolescent girl--at death's door and angry at God--miraculously recovers when she views the last painting of her dying grandfather, who sought to capture on canvas the essence of God's love.

Joan Baez-Elizabeth Thomson 2020-10 Since she stepped onstage unannounced at the 1959 Newport Folk Festival, Joan Baez has occupied a singular place in popular music. Within three years, she had recorded three best-selling albums and had embarked on a tour of southern US campuses, playing to integrated audiences in an era of segregation. When Time magazine chronicled the folk revival in November 1962, her portrait was on the cover. Her voice was "as lustrous and rich as old gold." She has mentored generations of singer-songwriters, most famously Bob Dylan. But Joan Baez has always been much more than simply a singer. Even before she stepped on to the podium beside Dr Martin Luther King at the March on Washington, her voice was raised in sorrow and anger as well as in song. The causes for which she has campaigned are legion and it's no surprise that she was chosen to open Live Aid in Philadelphia in 1985. In 1993, amid the siege of Bosnia, she donned a flak jacket to sing for the citizens of Sarajevo offering, as so many times before and since, "an act of love, sharing, witness and music". Now approaching 80, Baez has stepped down from the stage following a worldwide farewell tour and a final Grammy-nominated album. The Last Leaf is a celebration of a timeless figure whose music and influence will endure long after her voice is silenced.

The Last Leaf-William Baldwin 2016-07-01 One fine day in early spring the newly sprouted leaves on The Great Oak tree laugh as they see a small misshapen leaf blossom on their branch. The bright green leaves tell this odd leaf, named Crinkle, that he will surely blow off the tree with the first strong wind of the season. Crinkle is filled with fear until he is reassured by Gus, the biggest leaf, that when a leaf falls its energy is pulled right back into the tree to then sprout again the following spring. Though he doesn't fit in with the other leaves and is teased due to his strange shape and color, Crinkle discovers he has more strength and more courage than any other leaf on The Great Oak Tree. Through the rainy season, blustery Northeastern winds, and the bitter cold, little Crinkle holds on to his branch and endures a lonely winter to become the winner of the annual Last Leaf competition. When the next spring arrives Crinkle blossoms again only to learn that something wonderful can happen when you conquer your fears, strive to do your best, and defy all expectations.

The Last Leaf-Stuart Lutz These interviews of the last survivors of historic events offer fascinating insights on the social and cultural history of twentieth-century America. The stories of ordinary people caught up in extraordinary experiences carry a powerful poignancy.-Dr. James M. McPherson, Princeton University; Pulitzer Prize-winning author of Battle Cry of FreedomWhen we read about famous historical events, we may wonder about the firsthand experiences of the people directly involved. What insights could be gained if we could talk to someone who remembered the Civil War, or the battle to win the vote for women, or Thomas Edison's struggles to create the first electric light bulb? Amazingly, many of these experiences are still preserved in living memory by the final survivors of important, world-changing events.In this unique oral history book, author and historic document specialist Stuart Lutz records the stories told to him personally by people who witnessed many of history's most famous events. Among many others, Lutz interviewed:- the final three Civil War widows (one Union and two Confederate)- the final pitcher to surrender a home run to Babe Ruth- the last suffragette- the last living person to fly with Amelia Earhart- the final American World War I soldier- the last surviving employees of Thomas Edison, F. Scott Fitzgerald, and Harry Houdini.The wide-ranging stories involve humor (the 1920 Olympic medalist who stole the original Olympic flag), tragedy (the last survivor of the 1915 Lusitania sinking), heroism (the final Medal of Honor recipient for actions on Pearl Harbor Day), and eyewitnesses to great events (one of the last scientists at the first nuclear chain reaction, and the final Iwo Jima flag raiser).In more than three-dozen chapters, Lutz blends background information in a lively narrative with the words of the interviewees, so that readers not familiar with the historical episodes described can understand what occurred and the long-term significance of the events.A book that truly makes the past come alive, The Last Leaf will fascinate not only history buffs but anyone who likes a good story.Stuart Lutz (Short Hills, NJ) is the owner of Stuart Lutz Historic Documents, Inc., a firm that buys, sells, and appraises historic documents, letters, and rare manuscripts. THE LAST LEAF FROM SUNNY SIDE.-H. TRUSTA 1853

The Wedding-Dorothy West 2009-12-30 In her final novel, Dorothy West offers an intimate glimpse into African American middle class. Set on bucolic Martha's Vineyard in the 1950s, The Wedding tells the story of life in the Oval, a proud, insular community made up of the best and brightest of the East Coast's black bourgeoisie. Within this inner circle of "blue-vein society," we witness the prominent Coles family gather for the wedding of the loveliest daughter, Shelby, who could have chosen from "a whole area of eligible men of the right colors and the right professions." Instead, she has fallen in love with and is about to be married to Meade Wyler, a white jazz musician from New York. A shock wave breaks over the Oval as its longtime members grapple with the changing face of its community. With elegant, luminous prose, Dorothy West crowns her literary career by illustrating one family's struggle to break the shackles of race and class.

Mark Z. Danielewski's House of Leaves-Mark Z. Danielewski 2000 A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries

A Respectable Woman-Kate Chopin 2014-04-03 They had entertained a good deal during the winter; much of the time had also been passed in New Orleans in various forms of mild dissipation. She was looking forward to a period of unbroken rest, now, and undisturbed tete-a-tete with her husband, when he informed her that Gouvernail was coming up to stay a week or two. This was a man she had heard much of but never seen. He had been her husband's college friend; was now a journalist, and in no sense a society man or "a man about town," which were, perhaps, some of the reasons she had never met him. But she had unconsciously formed an image of him in her mind. She pictured him tall, slim, cynical; with eye-glasses, and his hands in his pockets; and she did not like him. Gouvernail was slim enough, but he wasn't very tall nor very cynical; neither did he wear eyeglasses nor carry his hands in his pockets. And she rather liked him when he first presented himself. But why she liked him she could not explain satisfactorily to herself when she partly attempted to do so. She could discover in him none of those brilliant and promising traits which Gaston, her husband, had often assured her that he possessed. On the contrary, he sat rather mute and receptive before her chatty eagerness to make him feel at home and in face of Gaston's frank and wordy hospitality. His manner was as courteous toward her as the most exacting woman could require; but he made no direct appeal to her approval or even esteem.

Yale Book of American Verse-Thomas Raynesford Lounsbury 1913

The Last Leaf Has Fallen-J. Willis Hurst 2007-11 Hippocrates, the father of medicine, practiced and taught on the Greek island of Kos about 460 years BC. A descendant of the tree under which he taught still stands. Let us imagine that the tree symbolizes the profession of medicine. The roots the ethical and scientific basis of medicine are deteriorating, and the leaves the physicians are vanishing! Good doctors are currently forced to work in a bad system. They have lost control of their actions and destiny. This, in turn, is breaking the compassionate spirit of the strongest among them and is driving some doctors out of the profession they love. Dr. Vance Connelly, whose wife died recently, moves to a retirement community. He leaves each day at 5:00 AM for the internationally recognized Greystone University Hospital to teach medical students, house officers, and fellows. He writes for the remainder of his eight-hour workday. He formerly chaired the Department of Medicine, but continues to work despite his age of eighty-five. This book tracks the careers of two of his former house officers. One seems to be the only doctor left who fits the definition of a truly professional doctor. The other wanders far from his training and succumbs to greed. The book describes a behind-the-scenes view of certain aspects of the famous teaching hospital; a look at life in a retirement home; the lives of two very different doctors who trained with Dr. Vance Connelly; and, most importantly, the love affair between Vance and his wife Jennifer. St. Simons Island (January 16, 2005)

Eats, Shoots & Leaves-Lynne Truss 2004-04-12 We all know the basics of punctuation. Or do we? A look at most neighborhood signage tells a different story. Through sloppy usage and low standards on the internet, in email, and now text messages, we have made proper punctuation an endangered species. In Eats, Shoots & Leaves, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with.
