True Stories of Strange Events and Odd People-Lawrence S. Bartell 2014-01-29 Lawrence Bartell experienced many strange events over the course of his long life, at least partly because he deliberately strayed far from the beaten path in science. While it might not have been the most efficient way to gain a reputation in his field, it was more fun. In his memoir, he presents a collection of entertaining, sometimes bizarre stories collected over a lifetime. Bartell chronicles a wide variety of experiences, such as his predisposition to indulge in childhood pranks, his arrest as a possible Russian spy, his work on the Manhattan Project, his entry into the Guinness Book of Records, his stint in the US Navy during wartime, and his appointment as visiting professor in Moscow during the height of the Cold War. As he recalls the curious—and often bizarre—true stories he acquired over a lifetime, it soon becomes evident that scientists are just as human as anyone else and that beer really can play an important role in preparing one for a PhD thesis. True Stories of Strange Events and Odd People shares details from a scientist's one-of-a-kind journey through life as he observes the world around him, tests his theories, and learns valuable life lessons.

Bad Rabbi-Eddy Portnoy 2017-10-24 Stories abound of immigrant Jews on the outside looking in, clambering up the ladder of social mobility, successfully assimilating and integrating into their new worlds. But this book is not about the success stories. It's a paean to the bunglers, the blockheads, and the just plain weird—Jews who were flung from small, impoverished eastern European towns into the urban shtetls of New York and Warsaw, where, as they say in Yiddish, their bread landed butter side down in the dirt. These marginal Jews may have found their way into the history books far less frequently than their more socially upstanding neighbors, but there's one place you can find them in force: in the Yiddish newspapers that had their heyday from the 1880s to the 1930s. Disaster, misery, and misfortune: you will find no better chronicle of the daily ignominies of urban Jewish life than in the pages of the Yiddish press. An underground history of downwardly mobile Jews, Bad Rabbi exposes the seamy underbelly of pre-WWII New York and Warsaw, the two major centers of Yiddish culture in the late nineteenth and early twentieth centuries. With true stories plucked from the pages of the Yiddish papers, Eddy Portnoy introduces us to the drunks, thieves, murderers, wrestlers, poets, and beauty queens whose misadventures were immortalized in print. There's the Polish rabbi blackmailed by an American widow, mass brawls at weddings and funerals, a psychic who specialized in locating missing husbands, and violent gangs of Jewish mothers on the prowl—in short, not quite the Jews you'd expect. One part Isaac Bashevis Singer, one part Jerry Springer, this irreverent, unvarnished, and frequently hilarious compendium of stories provides a window into an unknown Yiddish world that was.

These are stories of courage, daring, and stupidity, some of which would challenge the imaginations of Hollywood scriptwriters. Strange But True Stories- 2007

Chameleo-Robert Guffey 2015-04-23 A mesmerizing mix of Charles Bukowski, Hunter S. Thompson, and Philip K. Dick, Chameleo is a true account of what happened in a seedy Southern California town when an enthusiastic and unrepentant heroin addict named Dion Fuller sheltered a U.S. Marine who'd stolen night vision goggles and perhaps a few top secret files from a nearby military base. Dion found himself arrested (under the ostensible auspices of The Patriot Act) for conspiring with international terrorists to smuggle Top Secret military equipment out of Camp Pendleton. The fact that Dion had absolutely nothing to do with international terrorists, smuggling, Top Secret military equipment, or Camp Pendleton didn't seem to bother the military. He was released from jail after a six-day-long Abu-Ghraib-style interrogation. Subsequently, he believed himself under intense government scrutiny — and, he suspected, the subject of bizarre experimentation involving “cloaking”— electro-optical camouflage so extreme it renders observers practically invisible from a distance of some meters — by the Department of Homeland Security. Hallucination? Perhaps — except Robert Guffey, an English teacher and Dion's friend, tracked down and interviewed one of the scientists behind the project codenamed “Chameleo,” experimental technology which appears to have been stolen by the U.S. Department of Defense and deployed on American soil. More shocking still, Guffey discovered that the DoD has been experimenting with its newest technologies on a number of American citizens. A condensed version of this story was the cover feature of Fortean Times Magazine (September 2013).

Midwestern Strange-B. J. Hollars 2019-09 Midwestern Strange chronicles B.J. Hollars's exploration of the mythic, lesser-known oddities of flyover country. The mysteries, ranging from bipedal wolf sightings to run-ins with pancake-flipping space aliens to a lumberjack-inspired "Hodag hoax," make this book a little bit X-Files, a little bit Ghostbusters, and a whole lot of Sherlock Holmes. Hollars's quest is not to confirm or debunk these mysteries but rather to seek out these unexplained phenomena to understand how they complicate our worldview and to discover what truths might be gleaned by reexamining the facts in our "post-truth" era. Part memoir and part journalism, Midwestern Strange offers a fascinating, funny, and quirky account of flyover folklore that also contends with the ways such oddities retain cultural footholds. Hollars shows how grappling with such subjects might fortify us against the glut of misinformation now inundating our lives. By confronting monsters, Martians, and a cabinet of curiosities, we challenge ourselves to look beyond our presumptions and acknowledge that just because something is weird, doesn't mean it is wrong.

Goat Castle-Karen L. Cox 2017-08-09 In 1932, the city of Natchez, Mississippi, reckoned with an unexpected influx of journalists and tourists as the lurid story of a local murder was splashed across headlines nationwide. Two eccentrics, Richard Dana and Octavia Dockery—known in the press as the "Wild Man" and the "Goat Woman"—enlisted an African American man named George Pearls to rob their reclusive neighbor, Jennie Merrill, at her estate. During the attempted robbery, Merrill was shot and killed. The crime drew national coverage when it came to light that Dana and Dockery, the alleged murderers, shared their huge, decaying antebellum mansion with their goats and other livestock, which prompted journalists to call the estate "Goat Castle." Pearls was killed by an Arkansas policeman in an unrelated incident before he could face trial. However, as was all too typical in the Jim Crow South, the white community demanded "justice," and an innocent black woman named Emily Burns was ultimately sent to prison for the murder of Merrill. Dana and Dockery not only avoided punishment but also lived to profit from the notoriety of the murder by opening their derelict home to tourists. Strange, fascinating, and sobering, Goat Castle tells the story of this local feud, killing, investigation, and trial, showing how a true crime tale of fallen southern grandeur and murder obscured an all too familiar story of racial injustice.
