A Companion to Thomas Mann's The Magic Mountain-Stephen D. Dowden 2002 Volume offering a guide to and reassessment of Thomas Mann's famous novel.

Thomas Mann's The Magic Mountain-Rodney Symington 2011-09-22 Thomas Mann's novel The Magic Mountain presents a panorama of European society in the first two decades of the 20th century and depicts the philosophical and metaphysical dilemmas facing people in the modern age. In the years leading up to the First World War, the fundamental elements of human nature were thrown into sharp relief by the political tensions that resulted in the ultimate metaphor for the innate destructiveness of humankind: the War itself. If such a war is the true expression of human tendencies, what hope is there for the future? Through the figure of the main character of the novel, Thomas Mann explores the alternative philosophies of life available to human beings in the modern age, and invites the reader to undertake a personal odyssey of discovery, with a view to adopting a positive approach in an era that seems to offer no clear-cut answers. This book is a comprehensive commentary on Thomas Mann's seminal novel, one of the key literary artefacts of the 20th century. The author has taken upon himself the task of explaining all the references and allusions contained in the novel, and of providing readers who know little or no German with enough explanatory comment to enable them to understand the novel and extract the maximum reading pleasure from it.

The Magic Mountain-Thomas Mann 2020-05-28 The Magic Mountain (German: Der Zauberberg) is a novel by Thomas Mann, first published in German in November 1924. It is widely considered to be one of the most influential works of twentieth-century German literature. Mann started writing what was to become The Magic Mountain in 1912. It began as a much shorter narrative which revisited in a comic manner aspects of Death in Venice, a novella that he was preparing for publication. The newer work reflected his experiences and impressions during a period when his wife, who was suffering from a lung complaint, resided at Dr. Friedrich Jessen's Waldsanatorium in Davos, Switzerland for several months. In May and June 1912, Mann visited her and became acquainted with the team of doctors and patients in this cosmopolitan institution. According to Mann, in the afterword that was later included in the English translation of his novel, this stay inspired his opening chapter ("Arrival"). The outbreak of World War I interrupted his work on the book. The savage conflict and its aftermath led the author to undertake a major re-examination of European bourgeois society. He explored the sources of the destructiveness displayed by much of civilised humanity. He was also drawn to speculate about more general questions related to personal attitudes to life, health, illness, sexuality and mortality. Given this, Mann felt compelled to radically revise and expand the pre-war text before completing it in 1924. Der Zauberberg was eventually published in two volumes by S. Fischer Verlag in Berlin. The narrative opens in the decade before World War I. It introduces the protagonist, Hans Castorp, the only child of a Hamburg merchant family. Following the early death of his parents, Castorp has been brought up by his grandfather and later, by a maternal uncle named James Tienappel. Castorp is in his early 20s, about to take up a shipbuilding career in Hamburg, his home town. Before beginning work, he undertakes a journey to visit his tubercular cousin, Joachim Ziemssen, who is seeking a cure in a sanatorium in Davos, high up in the Swiss Alps. In the opening chapter, Castorp leaves his familiar life and obligations, in what he later learns to call "the

flatlands", to visit the rarefied mountain air and introspective small world of the sanatorium.

Thomas Mann's War-Tobias Boes 2019-11-15 In Thomas Mann's War, Tobias Boes traces how the acclaimed and bestselling author became one of America's most prominent anti-fascists and the spokesperson for a German cultural ideal that Nazism had perverted. Thomas Mann, winner of the 1929 Nobel Prize in literature and author of such world-renowned novels as *Buddenbrooks* and *The Magic Mountain*, began his self-imposed exile in the United States in 1938, having fled his native Germany in the wake of Nazi persecution and public burnings of his books. Mann embraced his role as a public intellectual, deftly using his literary reputation and his connections in an increasingly global publishing industry to refute Nazi propaganda. As Boes shows, Mann undertook successful lecture tours of the country and penned widely-read articles that alerted US audiences and readers to the dangers of complacency in the face of Nazism's existential threat. Spanning four decades, from the eve of World War I, when Mann was first translated into English, to 1952, the year in which he left an America increasingly disfigured by McCarthyism, Boes establishes Mann as a significant figure in the wartime global republic of letters.

In the Shadow of the Magic Mountain-Andrea Weiss 2010-09-15 Thomas Mann's two eldest children, Erika and Klaus, were unconventional, rebellious, and fiercely devoted to each other. Empowered by their close bond, they espoused vehemently anti-Nazi views in a Europe swept up in fascism and were openly, even defiantly, gay in an age of secrecy and repression. Although their father's fame has unfairly overshadowed their legacy, Erika and Klaus were serious authors, performance artists before the medium existed, and political visionaries whose searing essays and lectures are still relevant today. And, as Andrea Weiss reveals in this dual biography, their story offers a fascinating view of the literary and intellectual life, political turmoil, and shifting sexual mores of their times. *In the Shadow of the Magic Mountain* begins with an account of the make-believe world the Manns created together as children—an early sign of their talents as well as the intensity of their relationship. Weiss documents the lifelong artistic collaboration that followed, showing how, as the Nazis took power, Erika and Klaus infused their work with a shared sense of political commitment. Their views earned them exile, and after escaping Germany they eventually moved to the United States, where both served as members of the U.S. armed forces. Abroad, they enjoyed a wide circle of famous friends, including Andre Gide, Christopher Isherwood, Jean Cocteau, and W. H. Auden, whom Erika married in 1935. But the demands of life in exile, Klaus's heroin addiction, and Erika's new allegiance to their father strained their mutual devotion, and in 1949 Klaus committed suicide. Beautiful never-before-seen photographs illustrate Weiss's riveting tale of two brave nonconformists whose dramatic lives open up new perspectives on the history of the twentieth century.

Framing and Imagining Disease in Cultural History-G. Rousseau 2003-07-03 Throughout human history illness has been socially interpreted before its range of meanings could be understood and disseminated. Writers of diverse types have been as active in constructing these meanings as doctors, yet it is only recently that literary traditions have been recognized as a rich archive for these interpretations. These essays focus on the methodological hurdles encountered in retrieving these interpretations, called 'framing' by the authors. *Framing and Imagining Disease in Cultural History* aims to explain what has been said about these interpretations and to compare their value.

When Barb talks her two friends into some seemingly innocent Charlie's Angels-like sleuthing, they stumble upon way more than they bargained for and uncover a piece of neighborhood history that certain people would kill to keep on the cutting room floor. 237 pages of laugh-out-loud fun.

Thomas Mann's Artist-Heroes-Jeffrey Meyers 2014-02-28 Jeffrey Meyers has written acclaimed biographies of many of the most influential authors of the twentieth century, but none has affected him as deeply as Thomas Mann. From his first youthful encounter with Death in Venice, Meyers has cultivated a lifetime obsession with Mann's elegant style, penetrating irony, and insight into the life of the artist. Admirers of Thomas Mann and of Jeffrey Meyers's biographies will find in this remarkable book the best introduction to one of the greatest writers of the modern age.

Death in Venice-Thomas Mann 2010-11-03 Eight complex stories illustrative of the author's belief that "a story must tell itself," highlighted by the high art style of the famous title novella.

The Rest Is Noise-Alex Ross 2007-10-16 The scandal over modern music has not died down. While paintings by Pablo Picasso and Jackson Pollock sell for a hundred million dollars or more, shocking musical works from Stravinsky's Rite of Spring onward still send ripples of unease through audiences. At the same time, the influence of modern music can be felt everywhere. Avant-garde sounds populate the soundtracks of Hollywood thrillers. Minimalist music has had a huge effect on rock, pop, and dance music from the Velvet Underground onward. Alex Ross, the brilliant music critic for The New Yorker, shines a bright light on this secret world, and shows how it has pervaded every corner of twentieth century life. The Rest Is Noise takes the reader inside the labyrinth of modern sound. It tells of maverick personalities who have resisted the cult of the classical past, struggled against the indifference of a wide public, and defied the will of dictators. Whether they have charmed audiences with the purest beauty or battered them with the purest noise, composers have always been exuberantly of the present, defying the stereotype of classical music as a dying art. Ross, in this sweeping and dramatic narrative, takes us from Vienna before the First World War to Paris in the twenties, from Hitler's Germany and Stalin's Russia to downtown New York in the sixties and seventies. We follow the rise of mass culture and mass politics, of dramatic new technologies, of hot and cold wars, of experiments, revolutions, riots, and friendships forged and broken. In the tradition of Simon Schama's The Embarrassment of Riches and Louis Menand's The Metaphysical Club, the end result is not so much a history of twentieth-century music as a history of the twentieth century through its music.

The Diary of a Nobody-George Grossmith 2018-07-24 The Diary of a Nobody is an English comic novel that records the daily events in the lives of a London clerk, Charles Pooter, his wife Carrie, his son Lupin, and numerous friends and acquaintances over a period of 15 months.

Castorp-Paweł Huelle 2007 Pawel Huelle imagines the adventures of Hans Castorp from Thomas Mann's The Magic Mountain.

Collected Stories-Thomas Mann 2001 Famous for his novels, Thomas Mann is more accessible through the shorter fictions which span his entire career. The most famous of these stories is one of the earliest. Death in Venice was made into the celebrated Visconti film, but all his mature preoccupations are present in this story: the need for a sense of meaning in existence, the relationship between life and art, the central role of sexual energy and the strange forms it can take, the place of death and disease, the importance of work, the individual's complex relations with his society and the dominant culture. These themes are developed in a series of brilliant stories, many of them very short and displaying the author's talent for macabre comedy. Dr Faustus and Buddenbrooks are already available in Everyman

Joseph and His Brothers-Thomas Mann 1997 THE BOOK: As Germany dissolved into the nightmare of Nazism, Thomas Mann was at work on this epic recasting of the the great Bible story. Joseph, his brothers and his father Jacob, are at the prototypes of all humanity and their story is the story of life itself. Mann has taken one of the great simple chronicles of literature and filled it with psychological scope and range: its men and women are not remote figures in the Book of Genesis, but founders of states in a fresh, realistic world akin to our own .

Death in Venice, Tonio Kroger, and Other Writings: Thomas Mann-Thomas Mann 1999-04-01 Thomas Mann (1875-1955) won the Nobel Prize for literature in 1929. This is a collection of his shorter works. "Death in Venice", later filmed by Lucion Visconti starring Dirk Bogarde, was published in 1911. It is a poetic meditation on art and beauty, where the dying composer Aschenbach (modelled on Gustav Mahler) becomes fixated by the young boy Tadzio. The other stories are: "Tonio Kroger"; the collection entitled "Tristan"; "The Blood of the Walsungs"; "Mario the Magician"; and "The Tables of the Law". A number of essays are also included.

Underground-Will Hunt 2020-04-28 "[A] winningly obsessive history of our relationship with underground places" (The Guardian), from sacred caves and derelict subway stations to nuclear bunkers and ancient underground cities--an exploration of the history, science, architecture, and mythology of the worlds beneath our feet NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR When Will Hunt was sixteen years old, he discovered an abandoned tunnel that ran beneath his house in Providence, Rhode Island. His first tunnel trips inspired a lifelong fascination with exploring underground worlds, from the derelict subway stations and sewers of New York City to sacred caves, catacombs, tombs, bunkers, and ancient underground cities in more than twenty countries around the world. Underground is both a personal exploration of Hunt's obsession and a panoramic study of how we are all connected to the underground, how caves and other dark hollows have frightened and enchanted us through the ages. In a narrative spanning continents and epochs, Hunt follows a cast of subterraneaphiles who have dedicated themselves to investigating underground worlds. He tracks the origins of life with a team of NASA microbiologists a mile beneath the Black Hills, camps out for three days with urban explorers in the catacombs and sewers of Paris, descends with an Aboriginal family into a 35,000-year-old mine in the Australian outback, and glimpses a sacred sculpture molded by Paleolithic artists in the depths of a cave in the Pyrenees. Each adventure is woven with findings in mythology and anthropology, natural history and neuroscience, literature and philosophy. In elegant and graceful prose, Hunt cures us of our "surface chauvinism," opening our eyes to the planet's hidden dimension. He reveals how the subterranean landscape gave shape to our most basic beliefs and guided how we think about ourselves as humans. At bottom, Underground is a meditation on the allure of darkness, the power of mystery, and our eternal desire to connect with what we cannot see. Praise for Underground "A mesmerizingly fascinating tale . . . I could not stop reading this beautifully written book."--Michael Finkel, author of The Stranger in the Woods "Few books have blown my mind so totally, and so often. In Will Hunt's nimble hands, excursion becomes inversion, and the darkness turns luminous. There are echoes of Sebald, Calvino, and Herzog in his elegant and enigmatic voice, but also real warmth and humor. . . . An intrepid--but far from fearless--journey, both theoretically and terrestrially."--Robert Moor, New York Times bestselling author of On Trails

Thomas Mann-Anthony Heilbut 1996 With 37 photographs in text

Thomas Mann-Hermann Kurzke 2002 Kurzke's book provides fresh and sometimes startling insights into both famous and little-known episodes in Mann's life and into his writing--the only realm in which he ever felt free. It shows how love, death, religion, and politics were not merely themes in "Buddenbrooks, The Magic Mountain, " but were woven into the fabric of his existence. 40 photos.

Diaries, 1918-1939-Thomas Mann 1982

Cursed Legacy-Frederic Spotts 2016-01-01 Son of the famous Thomas Mann, homosexual, drug-addicted, and forced to flee from his fatherland, the gifted writer Klaus Mann's comparatively short life was as artistically productive as it was devastatingly dislocated. Best-known today as the author of Mephisto, the literary enfant terrible of the Weimar era produced seven novels, a dozen plays, four biographies, and

three autobiographies--among them the first works in Germany to tackle gay issues--amidst a prodigious artistic output. He was among the first to take up his pen against the Nazis, as a reward for which he was blacklisted and denounced as a dangerous half-Jew, his books burnt in public squares around Germany, and his citizenship revoked. Having served with the U.S. military in Italy, he was nevertheless undone by anti-Communist fanatics in Cold War-era America and Germany, dying in France (though not, as all other books contend, by his own hand) at age forty-two. Powerful, revealing, and compulsively readable, this first English-language biography of Klaus Mann charts the effects of reactionary politics on art and literature and tells the moving story of a supreme talent destroyed by personal circumstance and the seismic events of the twentieth century.

The Ambassadors-Henry James 1923 This complex tale of self-discovery -- considered by the author to be his best work -- traces the path of an aging idealist, Lambert Strether. Arriving in Paris with the intention of persuading his young charge to abandon an obsession with a French woman and return home, Strether reaches unexpected conclusions.

Unwritten Memories-Katia Mann 1975

Neurological Disorders in Famous Artists --J. Bogousslavsky 2018-10-18 In this fourth volume of the popular series 'Neurological Disorders in Famous Artists' we once again delve into the minds of writers, painters, and poets in order to gain better insight on how neurological and psychiatric diseases can influence creativity. The issue of schizophrenia, the interaction between psychological instability and drug abuse, and the intricate association between organic wounds and shell-shock disorders are illustrated with the examples of Franz Kafka, Raymond Roussel, and Louis-Ferdinand Céline and their writings. Dementia has been specifically studied before, including in the previous volumes of Neurological Disorders in Famous Artists. It is revisited here in order to present the striking and well-documented case of Willem de Kooning, which inspired a new approach. Apart from issues that sometimes border on neuropsychiatry, purer neurological cases such as post-amputation limb pain (Arthur Rimbaud) or tabetic ataxia (Edouard Manet) are presented as well. Other fascinating life trajectories associated with cerebral or psychological changes include those of the writers Bjornsen, Tolstoi, Turgenev, Mann, Ibsen, and Pavese.

Reflections of a Nonpolitical Man-Thomas Mann 2021 "When World War I broke out the author of "Buddenbrooks" was almost 40 but not yet in the public view one of the giants of European literature. In his native Germany it was thought that Gerhart Hauptmann and probably a few of his elder contemporaries were towering above him. But he already had a reputation as one of the most interesting writers in Europe and as a moralist from whom his many readers expected a message in a time of great trials. His first decision was that of a man of action, not a man of letters, and he volunteered for the Landsturm, the reserve army. The physician who examined him happened to know his work and reached the sensible conclusion that the writer Thomas Mann would make a greater contribution to the war effort than the soldier. Mann's despair was within manageable limits; he wrote to a friend that his nerves were bad and his heart, head and stomach would fail him. The doctor had probably saved him from disgrace"--Death in Venice, (and Two Other Stories).-Thomas Mann 1955

America's Great Debate-Fergus M. Bordewich 2013-04-16 Chronicles the 1850s appeals of Western territories to join the Union as slave or free states, profiling period balances in the Senate, Henry Clay's attempts at compromise, and the border crisis between New Mexico and Texas.

Resurrections-Jeffrey Meyers 2018-10-09 Jeffrey Meyers' Resurrections: Authors, Heroes—and a Spy brings to life a set of extraordinary writers, painters, and literary adventurers who turned their lives into art. Meyers knew nine of these figures, in some cases intimately, while five others he admires and regrets never meeting. As he writes in the preface, "The chapters in this book represent in miniature my career as a life-writer. My biographies have always been driven by fascination with the source of artistic creativity, with people who wrote or painted and with the worlds they inhabited." Ian Watt, who taught Meyers at Berkeley, struggled with the legacy of his ordeal as a Japanese prisoner of war, and with its depiction in the film, *The Bridge on the River Kwai*. The story of Paul Theroux's feud with Sir Vidia Naipaul is well known, but Meyers finds greater meaning in their quarrel through the lens of his own long friendship with Theroux. While James Salter, fighter pilot and brilliant stylist, epitomizes Meyers' heroic ideal, the fiction writer also responds with an epistolary friendship, punctuated by visits, and Meyers is delighted by Salter's great reputation late in life. Anthony Blunt, art historian and communist spy, fascinates the biographer for a darker reason: the depth of his capacity for intellectual and personal deceit. The feckless, lesser-known Hugh Gordon Porteus, told Meyers many revealing and amusing stories about his friends Wyndham Lewis, T. S. Eliot and Ezra Pound. In the process of writing these profiles, Meyers discovers a common thread relating to himself: not only do these subjects provoke a kind of personal testing, they also

represent his search for the ideal father in his vivid intellectual and imaginative inquiry.

The New Southern Gentleman-Jim Booth 2002-08 "Daniel Randolph Deal is a Southern aristocrat, having the required bloodline, but little of the nobility. A man resistant to the folly of ethics, he prefers a selective, self-indulgent morality. He is a confessed hedonist, albeit responsibly so."--Back cover.

The Magic Mountain-Thomas Mann 2005 A sanatorium in the Swiss Alps reflects the societal ills of pre-twentieth-century Europe, and a young marine engineer rises from his life of anonymity to become a pivotal character in a story about how a human's environment affects self-identity. 10,000 first printing.

The Real Tadzio-Gilbert Adair 2003 In the summer of 1911, the German writer Thomas Mann visited Venice in the company of his wife Katia. There, in the Grand Hotel des Bains, as he waited for the dinner-gong to ring, the author's roving eye was drawn to a nearby Polish family, the Moeses, consisting of a mother, three daughters, and a young sailor-suited son who, to Mann, exuded an almost supernatural beauty and grace. Inspired by this glancing encounter with the luminous child, Mann wrote *Death in Venice*, and the infatuated writer made of that boy, Wladyslaw Moes, one of the twentieth century's most potent and enduring icons. According to Gilbert Adair in his sparkling evocation of that idyll on the Adriatic, Mann wrote his novella, "as though taking dictation from God." But precisely who was the boy? And what was his reaction to the publication of *Death in Venice* in 1912 and, later, the release of Luchino Visconti's film adaptation in 1971? In this revealing portrait, including telling photographs, Gilbert Adair brilliantly juxtaposes the life of Wladyslaw Moes with that of his mythic twin, Tadzio. It is a fascinating account of a man who was immortalized by a genius, yet forgotten by history.

Thomas Mann's *The Magic Mountain*-Hans Rudolf Vaget 2008 This collection seeks to illustrate the ways in which Thomas Mann's 1924 novel, *The Magic Mountain*, has been newly construed by some of today's most astute readers in the field of Mann studies. The essays, many of which were written expressly for this volume, comment on some of the familiar and inescapable topics of *Magic Mountain* scholarship, including the questions of genre and ideology, the philosophy of time, and the ominous subjects of disease and medical practice. Moreover, this volume offers fresh approaches to the novel's underlying notions of masculinity, to its embodiment of the cultural code of anti-Semitism, and to its precarious relationship to the rival media of photography, cinema, and recorded sound.
