The First Americans-James Adovasio 2009-01-16 J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, The First Americans is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and

gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science.”

Alexander Tcherepnin-Enrique Alberto Arias 1989 A modern composer linked to the great Russian tradition of Rimsky-Korsakov and Mussorgsky, Alexander Tcherepnin produced a substantial body of work—both compositions and writings—that is of interest to music scholars as well as performers. Although his works are better known and more frequently performed in Europe, Tcherepnin made a unique contribution to the U.S. musical scene in the 1950s and 1960s as a teacher of composition at De Paul University in Chicago. This volume provides detailed information on his life and accomplishments, together with a catalogue of his works and performances and a complete bibliography. The first section offers an account of the composer's life and musical education in Russia and Paris and his subsequent career in the United States. It concludes with a critical analysis of his musical style. The catalogue is followed by separate alphabetical, chronological, and genre listings of the composer's works. The final sections are devoted to a discography of commercially available sound recordings and an annotated bibliography of writing by and about Tcherepnin. A series of appendixes contains valuable additional information on Tcherepnin's life and accomplishments, as well as data relating to the musical careers of his father, his two sons, and several of his composition students who have become recognized composers in their own right. This work, which incorporates the first detailed English-language biography of Alexander Tcherepnin, will be a valuable resource for scholars, music educators, and musicians with an interest in Russian music of the late nineteenth and early twentieth centuries.

Escape & the Man who Questions Death-Xingjian Gao 2007 "This collection contains two plays by Gao Xingjian, winner of the Nobel Prize for Literature 2000. *Escape* was written in 1989 in the wake of the June 4 Student Movement in Tiananmen Square in Beijing. With the publication of the play, Gao was expelled from the Chinese Communist Party, dismissed from his state appointment and had his house in Beijing confiscated. Perhaps because of this controversy, *Escape* has become the most performed of all of Gao's plays: it has been staged in Sweden, Germany, Belgium, France, Poland, Japan,

Ivory Coast, Tunisia, and Canada. Wherever it was staged, it was given a locally relevant interpretation and was well received, which lends credence to Gao's claim of the universality of the play he describes as the tragedy of modern man. The Man Who Questions Death is the latest of Gao's plays. It is also one of the most exciting and powerful." -- Book jacket.

100 Birds and How They Got Their Names-Diana Wells 2010-08 To know the names of birds is to understand something about human passions -- the scientific urge to explain, the poetic desire to describe, the ambitious claim to possess, and the spiritual need to be close to heaven. Here, Wells introduces the fearless adventurers and colorful characters -- Carl Linnaeus, Alexander Wilson, John Audubon -- who found and named new species. We learn of the gods and goddesses who, for punishment or pleasure, turned many a mortal into a bird -- and lent their names to some of our favorite species. We explore the avian symbols used by our greatest writers -- Coleridge's albatross, Poe's raven, and Whitman's thrush. Wells tells these 100 stories with a keen wit and a love of language.

And when Zeus and his fellow Olympians encounter Cerberus—a snarling, three-headed

dog—Hades must conquer his fears and tame the hound so everyone can continue into the Underworld and deposit their Titan prisoner, Oceanus, back where he belongs! The House on the Gulf-Margaret Peterson Haddix 2011-01-04 [If only] Bran would stop acting weird....Probably he had a perfectly reasonable explanation for everything. I just couldn't imagine what it would be. When Britt's older brother, Bran, lands a summer job house-sitting for the Marquises, an elderly couple, it seems like a great opportunity. Britt and Bran have moved to Florida so their mother can finish college, and the house-sitting income will allow their mom to quit her job and take classes full-time. Having never lived in a real house before, Britt is thrilled. There's only one problem: Britt starts to suspect her family isn't supposed to be there. She's been noticing that Bran is acting weird and defensive -- he hides the Marquises' mail, won't let anyone touch the thermostat, and discourages Britt from meeting any of the neighbors. Determined to get to the bottom of things, Britt starts investigating and makes a startling discovery -- the Marquises aren't who Bran has led her and their mom to believe. So whose house are they staying in, and why has Bran brought them there? With unexpected twists and turns, award winner Margaret Peterson Haddix has again crafted a thriller that will grip readers until its stunning conclusion.

One to the Wolves-Lois Duncan 2013-07-15 In 1992, Lois Duncan, acclaimed author of fictional suspense novels, wrote a horror story she could never have imagined writing—a true account of the murder of her own daughter, Kaitlyn Arquette. Kait, 18, was shot to death as she drove home from a friend's house on a Sunday evening in Albuquerque, New Mexico. Police closed the unsolved case as a "random shooting," refusing to accept information that indicated otherwise, although it had all the earmarks of a professional hit. That first book, WHO KILLED MY DAUGHTER?, was Duncan's desperate attempt to motivate informants and prevent the facts of Kait's story from becoming buried. It turned out to accomplish much more than that. Duncan's new book, ONE TO THE WOLVES: ON THE TRAIL OF A KILLER, is even more horrifying than its

predecessor as new information poured in, the family ran for their lives, and their original suspicions turned out to be the tip of an iceberg so immense that Kait, herself, could not have known how dangerous the information was that she had been sitting on in order to protect a now-estranged boyfriend. Since Kait didn't live to reveal it, her mother now does so in a book so intense and yet so painfully human that the reader will never forget it. All of the elements of a suspenseful mystery are here--intrigue, turns and twists, cover-ups, and page-turning action. The sobering fact is that, this time, the story isn't fiction.
