Shortlisted-Hannah Brenner Johnson 2020-05-12 Best Book of 2020, National Law Journal The inspiring and previously untold history of the women considered—but not selected—for the US Supreme Court In 1981, Sandra Day O'Connor became the first female justice on the United States Supreme Court after centuries of male appointments, a watershed moment in the long struggle for gender equality. Yet few know about the remarkable women considered in the decades before her triumph. Shortlisted tells the overlooked stories of nine extraordinary women—a cohort large enough to seat the entire Supreme Court—who appeared on presidential lists dating back to the 1930s. Florence Allen, the first female judge on the highest court in Ohio, was named repeatedly in those early years. Eight more followed, including Amalya Kearse, a federal appellate judge who was the first African American woman viewed as a potential Supreme Court nominee. Award-winning scholars Renee Knake Jefferson and Hannah Brenner Johnson cleverly weave together long-forgotten materials from presidential libraries and private archives to reveal the professional and personal lives of these accomplished women. In addition to filling a notable historical gap, the book exposes the tragedy of the shortlist. Listing and bypassing qualified female candidates creates a false appearance of diversity that preserves the status quo, a fate all too familiar for women, especially minorities. Shortlisted offers a roadmap to

The Federalist Papers-Alexander Hamilton 2018-08-20 Classic

Books Library presents this brand new edition of "The Federalist

Papers", a collection of separate essays and articles compiled in

1788 by Alexander Hamilton. Following the United States

Declaration of Independence in 1776, the governing doctrines and

policies of the States lacked cohesion. "The Federalist", as it was

previously known, was constructed by American statesman

Alexander Hamilton, and was intended to catalyse the ratification of

the United States Constitution. Hamilton recruited fellow statesmen

James Madison Jr., and John Jay to write papers for the

compendium, and the three are known as some of the Founding

Fathers of the United States. Alexander Hamilton (c. 1755-1804)

was an American lawyer, journalist and highly influential

government official. He also served as a Senior Officer in the Army

between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.
