Fast forward to today, and AMC muscle cars are among the fastest appreciating performance vehicles in the market. Low production numbers combined with capable performance and cool and unique styling have increased coverage in magazines and at auctions, making these cars more valuable than ever before. Chevrolet's Camaro was introduced in 1967 on the heels of Ford's best-selling Mustang. It quickly established itself as the go-to option for muscle-car customers wanting a more aggressive pony car. During its first generation from 1967 to 1969, GM offered option packages to satisfy all tastes, from six-cylinders grocery-getters to agile small-block cars to big-block monsters ready for drag racing straight off the showroom floor.
