Antique Linens Quilt. . . and More-Cindy Losekamp 2003-01-01 This quilt has been the source of comments, compliments and inspiration. The Antique Linens quilt has elicited more comments than anything I've ever done. That is why I am so happy to finally be able to present it to you in book form. It is a long awaited project that I am excited and thrilled to be able to bring to you. In these pages, you will find explicit directions for cutting, stabilizing, embroidering, assembling and finishing one of the most beautiful quilts around today. Truly elegant in ivory satin and moiré decorator faille, the embroidery designs are sewn in the new Sulky 12 weight cotton thread. None of the designs were digitized to use this new heavyweight thread, but they sew beautifully with it. The designs were created for the standard 30 and 40 weight rayon and polyester embroidery thread that most people have in their thread library. When thinking about the quilt, I thought that by using the heavier threads, it would give the illusion of hand work embroidery floss. The result is a beautiful, padded appearance that truly does look like hand embroidery!The same is true for the Antique Linens quilt, the threads and the additional layers of batting gives the entire quilt a very three dimensional look that is beyond compare. And now, it is yours to create. When thinking about creating a book for a CD from Cactus Punch, I felt that I needed to give you a reason to purchase the book even if you never made the quilt. As a result of that thought process, I have given you a book full of ideas, projects, instructions, patterns and designs. In thinking along these lines, I asked Judi Jaksa of Dallas, Texas to recreate twelve more of the original embroideries that I designed with the decorative stitches so long ago. Of the twelve original designs that were digitized, you have a total of 99 designs to work with. With careful segmenting and stitch editing of the larger embroideries, I have been able to give you multiple options for the creation of many more exciting blocks. On the CD, you will find a complete set of patterns for each quilt block, along with pictures of the stitched block. The directions are for using the Antique Linens #62 Cactus Punch CD. Each block has a placement guide for perfect hooping...All you need to do is to print them out. You will need Adobe Acrobat or Adobe Reader on your computer to be able to print the patterns since they are in PDF format. There are lots of designs on the CD, but the quilt was put together using the Cactus Punch CD and to duplicate it exactly, you will need to purchase that CD. You can certainly create your own quilt using the designs that come with this book. I have gotten you started with one gorgeous block.But thats not all...along with the many extra designs, there are sixteen projects that are designed for easy gifts and a way to showcase the included embroideries and the ones from the Cactus Punch #62 CD. There are pillows, vests, purses and cases, wall hangings, greeting cards and many more, just waiting for you to create these gifts of love for someone special...You may even have to make some for yourself. I know you will enjoy using this innovative book and CD. Explore Walking Foot Quilting with Leah Day-Leah Day 2017 Ready for a machine quilting adventure? Quilter's Complete Guide-Marianne Fons 2001-02 Internationally recognized quilt authors offer readers a revised contemporary quilting reference--expanded to include information on the use of computers, photo transfers, new quick-piecing techniques, stamped fabric, and much more. Original. The Magic Vine Quilt-Eleanor Burns 2007-04-15 Grow a flower garden in beautiful fabrics to grace your bed or wall as Eleanor Burns presents Magic Vine. The patterns for Magic Vine originated in the 1930's in a newspaper quilt column written by Florence LaGanke Harris. As part of a series, LaGanke presented one new pattern each week. In addition to the pattern, the reader was treated to a fictitious story about a quilt group and their leader, Nancy Page. In the group, they shared stories, and decided on what colors to use for their flowers. Twenty-two flowers are applied in rows with twinning vines. It is magical because of the variety of flowers that grow on the vine. The vine grows quickly, like the magic vine in Jack and the Beanstalk. Whimsical flowers and leaves are easily made, using lightweight paper backed adhesive or the quick turn method using non-woven fusible interfacing. The outside edges are finished with a variety of techniques: satin stitch, blanket stitch, blind hemstitch, and hand applique. Give Magic Vine a traditional 1930's look using reproduction fabrics or bright and contemporary with vibrant batiks. Enjoy embellishing the flowers with hand or machine stitches, beads, and crystals. Eleanor offers assistance on fabric selection and yardage and cutting charts for all five quilt sizes. Bonus projects are included. The book is conveniently bound in wire-o to lay flat.
