World Class Schools-Bert Creemers 2003-09-02 In this book the authors have conducted extensive research and describe what makes a successful school and how this varies in different countries. The book follows the progress of a cohort of 7-year-old children through their schools over a two-year period. It covers schools in the US, Canada, Hong Kong, Taiwan, Australia, the UK, Norway, the Netherlands, and Ireland and: *draw together what it is that the most and least effective schools do in each country *pinpoints what makes 'effective teaching' across the globe *analyses which effectiveness-producing school and teaching factors appear to be the same and which are context specific *discusses how educational policies can be used to generate World Class Schools and which new blends of practice can, or should be used The existing literature based upon the comparison of the educational achievements of different countries is inadequate. This unique study provides a rich picture of the processes of the education systems of different countries which will appeal to practitioners and policy makers.

Achieving Your Best in Math Class-Charles P. Kost II 2015-01-16 This collection of self-guided lessons includes the essential skills that are needed to be successful in any mathematics class at the middle school, high school, and post-secondary levels. Students who are struggling in math class, as well as students who want to maximize their abilities in class, will find these easy to implement strategies effective and practical. Each lesson includes practice problems to master the concepts and employ them into everyday practice. The strategies are divided into three units, each focusing on different aspects of achievement. The first unit includes organization, note taking, and techniques to study mathematics. Unit II includes problem-solving techniques that can be applied in any mathematics class, and the last unit provides techniques to maximize scores on any assessment from quizzes to final exams and even the SATs.
